

USER'S GUIDE

DCP-8085DN

Version 0

If you need to call Customer Service

Please complete the following information for future reference:

Model Number: DCP-8085DN (Circle your model number)

Place of Purchase:

The serial number is on the back of the unit. Retain this User's Guide with your sales receipt as a permanent record of your purchase, in the event of theft, fire or warranty service.

Register your product on-line at

http://www.brother.com/registration/

By registering your product with Brother, you will be recorded as the original owner of the product. Your registration with Brother:

- may serve as confirmation of the purchase date of your product should you lose your receipt; and
- may support an insurance claim by you in the event of product loss covered by insurance.

Compilation and Publication Notice

Under the supervision of Brother Industries Ltd., this manual has been compiled and published, covering the latest product descriptions and specifications.

The contents of this manual and the specifications of this product are subject to change without notice.

Brother reserves the right to make changes without notice in the specifications and materials contained herein and shall not be responsible for any damages (including consequential) caused by reliance on the materials presented, including but not limited to typographical and other errors relating to the publication.

General information

Using the documentation

Thank you for buying a Brother machine! Reading the documentation will help you make the most of your machine.

Symbols and conventions used in the documentation

The following symbols and conventions are used throughout the documentation.

Bold Bold style identifies keys on the

machine control panel or

computer screen.

Italics Italicized style emphasizes an

important point or refers you to

a related topic.

Courier New Courier New font identifies the messages shown on the LCD

of the machine.

WARNING

Warnings tell you what to do to prevent possible personal injury.

A CAUTION

Cautions specify procedures you must follow or avoid to prevent possible minor or severe injuries.

IMPORTANT

IMPORTANT describes procedures you must follow or avoid to prevent possible machine problems or damage to other objects.

Electrical Hazard icons alert you to a possible electrical shock.

Hot Surface icons warn you not to touch machine parts that are hot.

Notes tell you how you should respond to a situation that may arise or give tips about how the current operation works with other features.

Accessing the Software User's Guide and Network User's Guide

This User's Guide does not contain all the information about the machine such as how to use the advanced Printer, Scanner and Network features. When you are ready to learn detailed information about these operations, read the **Software User's Guide** and **Network User's Guide**.

Viewing documentation

Viewing documentation (Windows®)

To view the documentation, from the **Start** menu, point to **Brother**, **DCP-XXXX** (where XXXX is your model name) from the program group, and then click

User's Guides in HTML format.

If you have not installed the software, you can find the documentation by following the instructions below:

1 Turn on your PC.
Insert the Brother CD-ROM labelled
Windows[®] into your CD-ROM drive.

- 2 If the language selection screen appears, click your language.
- If the model name screen appears, click your model name. The CD-ROM main menu will appear.

If this window does not appear, use Windows[®] Explorer to find and run the start.exe program from the root directory of the Brother CD-ROM.

- 4 Click **Documentation**.
- 5 Click the documentation you want to read:
 - HTML documents (3 manuals): User's Guide for stand-alone operations, Software User's Guide and Network User's Guide in HTML format.

This format is recommended for viewing on your computer.

■ PDF documents (4 manuals):

User's Guide for stand-alone operations, Software User's Guide, Network User's Guide and Quick Setup Guide.

This format is recommended for printing the manuals. Click to go to the Brother Solutions Center, where you can view or download the PDF documents. (Internet access and PDF Reader software are required.)

How to find scanning instructions

There are several ways you can scan documents. You can find the instructions as follows:

Software User's Guide:

- Scanning a document using the TWAIN driver in Chapter 2
- Scanning a document using the WIA driver (Windows[®] XP/Windows Vista[®]) in Chapter 2
- Using ControlCenter3 in Chapter 3
- Network Scanning in Chapter 4

ScanSoft™ PaperPort™ 11SE with OCR How-to-Guides:

■ The complete ScanSoft[™] PaperPort[™] 11SE with OCR How-to-Guides can be viewed from the Help selection in the ScanSoft[™] PaperPort[™] 11SE application.

Viewing documentation (Macintosh®)

- 1 Turn on your Macintosh[®].
 Insert the Brother CD-ROM labelled
 Macintosh[®] into your CD-ROM drive.
- 2 The following window will appear.

- 3 Double-click the **Documentation** icon.
- 4 If the language selection screen appears, double-click your language.
- Double-click the top page file to view the User's Guide, Software User's Guide and Network User's Guide in HTML format.
- 6 Click the documentation you want to read.
 - Software User's Guide
 - Network User's Guide

The documents are also available in PDF format (4 manuals): **User's Guide** for stand-alone operations,

Software User's Guide, Network User's Guide and Quick Setup Guide. The PDF format is recommended for printing the manuals.

Double-click **Brother Solutions Center** icon to go to the Brother Solutions Center, where you can view or download the PDF documents. (Internet access and PDF Reader software are required.)

How to find scanning instructions

There are several ways you can scan documents. You can find the instructions as follows:

Software User's Guide:

- Scanning in Chapter 9
- Using ControlCenter2 in Chapter 10
- Network Scanning in Chapter 11

Presto! PageManager User's Guide:

The complete Presto! PageManager User's Guide can be viewed from the Help selection in the Presto! PageManager application.

Accessing Brother Support (For Windows®)

You can find all the contacts you will need, such as Web support (Brother Solutions Center).

■ Click **Brother Support** on the main menu.

The following screen will appear:

- To access our web site (http://www.brother.com), click Brother Home Page.
- For the latest news and product support information (<u>http://solutions.brother.com</u>), click Brother Solutions Center.
- To visit our web site for original Brother Supplies (http://www.brother.com/original/), click Supplies Information.
- To return to the main page, click Back or if you have finished, click Exit.

Control panel overview

1 Status LED

The LED will flash and change colour depending on the machine status.

2 LCD

Displays messages to help you set up and use your machine.

3 Menu keys:

Menu

Lets you access the Menu to program your settings in this machine.

Clear/Back

Deletes entered data or lets you cancel the current setting.

OK

Lets you store your settings in the machine.

⋖ or ▶

Press to scroll backwards or forwards through menu selections.

∆ or **▼**

Press to scroll through the menus and options.

4 Numeric keys

Use these keys to enter text.

5 Stop/Exit

Stops an operation or exits from a menu.

6 Start

Lets you start making copies or scanning.

7 Copy keys:

Duplex

You can choose Duplex to copy on both sides of the paper.

Contrast/Quality

Lets you change the quality or contrast for the next copy.

Enlarge/Reduce

Reduces or enlarges copies.

Tray Select

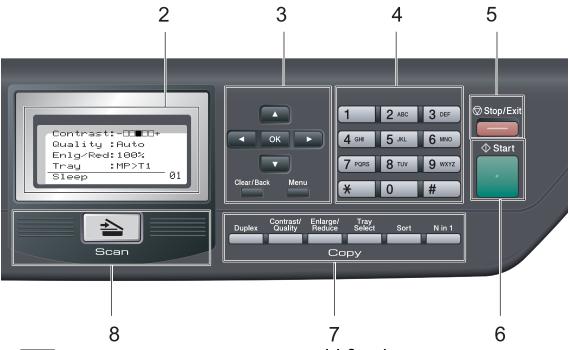

Lets you change which tray will be used for the next copy.

Sort

Sorts multiple copies using the ADF.

N in 1

You can choose N in 1 to copy 2 or 4 pages onto one page.

8 😩 Scan

Puts the machine in Scan mode. (For details about scanning, see the *Software User's Guide* on the CD-ROM.)

9 Print keys:

Secure/Direct

This key has two functions.

■ Secure

You can print data saved in memory when you enter your four-digit password. (For details about using the Secure key, see the *Software User's Guide* on the CD-ROM.) When using Secure Function Lock, you can switch restricted users by holding down ◀ as you press **Secure/Direct**. (See *Secure Function Lock 2.0* on page 27.)

■ Direct

Lets you print data from a USB Flash memory drive. The Direct key will be active when a USB Flash memory drive is connected to the machine's USB direct interface. (See *Printing data directly from the USB Flash memory drive or a digital camera supporting mass storage* on page 43.)

Job Cancel

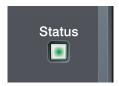

Cancels a programmed print job and clears it from the machine's memory.

To cancel multiple print jobs, hold down this key until the LCD shows

Job Cancel (All).

Status LED indications

The **Status** LED (light emitting diode) will flash and change colour depending on the machine's status.

LED	Machine Status	Description
0	Sleep Mode	The power switch is off or the machine is in Sleep mode.
	Warming Up	The machine is warming up for printing.
Green		
(blinking)		
	Ready	The machine is ready to print.
Green		
-\	Receiving Data	The machine is either receiving data from the computer, processing data in memory, or printing data.
Yellow		
(blinking)		
Yellow	Data Remaining in Memory	Print data remains in the machine memory.
**	Service error	Follow the steps below.
		1. Turn off the power switch.
Red (blinking)		2. Wait a few seconds, and then turn it back on and try to print again.
		If you cannot clear the error and you see the same service call indication after turning the machine back on, please call your Brother dealer for service.

	Cover open	The front cover or fuser cover is open. Close the cover.
Red	Toner Life End	Replace the toner cartridge with a new one.
	Paper error	Put paper in the tray or clear the paper jam. Check the LCD message.
	Scan lock	Check that the scanner lock lever is released.
	Others	Check the LCD message.

When the power switch is off or the machine is in Sleep mode, the LED is off.

Loading paper and documents

Loading paper and print media

The machine can feed paper from the standard paper tray, optional lower tray or multi-purpose tray.

When you put paper into the paper tray, note the following:

If your application software supports paper size selection on the print menu, you can select it through the software. If your application software does not support it, you can set the paper size in the printer driver or by using the control panel buttons.

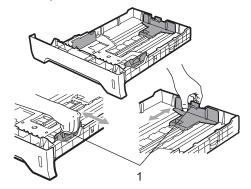

Loading paper in the standard paper tray

Printing on plain paper, thin paper, recycled paper or transparencies from the paper tray

Pull the paper tray completely out of the machine.

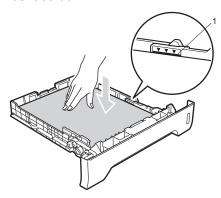

While pressing the blue paper-guide release lever (1), slide the paper guides to fit the paper size you are loading in the tray. Make sure that the guides are firmly in the slots.

Fan the stack of paper well to avoid paper jams and misfeeds.

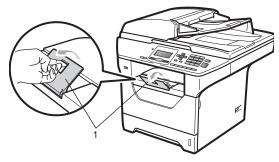

4 Put paper in the tray, and make sure that the paper is below the maximum paper mark (1). The side to be printed on must be face down.

IMPORTANT

Make sure the paper guides touch the sides of the paper.

- Dut the paper tray firmly back in the machine. Make sure that it is completely inserted into the machine.
- 6 Fold out the support flap (1) to prevent paper from sliding off the face-down output tray.

Loading paper in the multi-purpose tray (MP tray)

You can load up to 3 envelopes or special print media in the MP tray or up to 50 sheets of plain paper. Use this tray to print or copy on thick paper, bond paper, envelopes, labels or transparencies.

Printing on thick paper, bond paper, envelopes, labels and transparencies

Before loading, press the corners and sides of the envelopes to make them as flat as possible.

When the back output tray is pulled down, the machine has a straight paper path from the MP tray through to the back of the machine. Use this paper feed and output method when you want to print on thick paper, bond paper, envelopes, labels or transparencies.

IMPORTANT

Remove each printed sheet or envelope immediately to prevent a paper jam.

1 Open the back cover (back output tray).

Chapter 2

Open the MP tray and lower it gently.

Pull out the MP tray support (1) and unfold the flap (2).

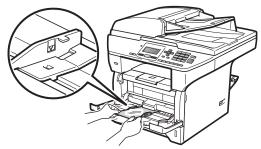

While pressing the paper side guide release lever, slide the paper guides to fit the width of the paper that you are going to use.

IMPORTANT

Make sure the paper guides touch the sides of the paper.

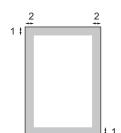

Dut the envelopes (up to 3), thick paper, labels or transparencies in the MP tray with the top edge first and the print side face up. Make sure that the paper stays under the maximum paper mark (▼).

Unprintable area

Unprintable area for copies

The figures show unprintable areas.

Document Size	Top (1) Bottom (1)	Left (2) Right (2)
Letter	3 mm	4 mm
A4	3 mm	2 mm

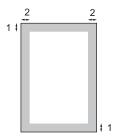

This unprintable area shown above is for a single copy or a 1 in 1 copy using A4 size paper. The unprintable area changes with the paper size.

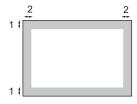

Unprintable area when printing from a computer

When using the printer driver the printable area is smaller than the paper size, as shown below.

Portrait

Landscape

		Windows [®] printer driver and Macintosh [®] printer driver	BRScript Driver for Windows [®] and Macintosh [®]
Portrait	1	4.23 mm	4.23 mm
	2	6.35 mm	4.23 mm
Landscape	1	4.23 mm	4.23 mm
	2	5.08 mm	4.23 mm

The unprintable area shown above is for A4 size paper. The unprintable area changes with the paper size.

Acceptable paper and other print media

Print quality may vary according to the type of paper you are using.

You can use the following types of print media: thin paper, plain paper, thick paper, bond paper, recycled paper, transparencies, labels or envelopes.

For best results, follow the instructions below:

- Use paper made for plain paper copying.
- Use paper that is 60 to 105 g/m².
- Use labels and transparencies which are designed for use in laser machines.
- DO not put different types of paper in the paper tray at the same time because it may cause paper jams or misfeeds.
- For correct printing, you must choose the same paper size from your software application as the paper in the tray.
- Avoid touching the printed surface of the paper immediately after printing.
- When you use transparencies remove each sheet immediately to prevent smudging or paper jams.
- Use long grain paper with a neutral Ph value, and a moisture content of approx. 5%.

Recommended paper and print media

To get the best print quality, we suggest using the following paper.

Paper Type	Item
Plain paper	Xerox Premier 80 g/m ²
	Xerox Business 80 g/m ²
Recycled Paper	Xerox Recycled Supreme 80 g/m ²
Transparency	3M CG3300
Labels	Avery laser label L7163
Envelope	Antalis River series (DL)

Type and size of paper

The machine loads paper from the installed standard paper tray, optional lower tray or multi-purpose tray.

Standard paper tray

Since the standard paper tray is a universal type, you can use any of the paper sizes (one paper type and size at a time) listed in the table in *Paper capacity of the paper trays* on page 16. The standard paper tray can hold up to 250 sheets of Letter/A4 size paper (80 g/m²). Paper can be loaded up to the maximum paper mark on the sliding paper width guide.

Multi-purpose tray (MP tray)

The MP tray can hold up to 50 sheets of plain paper (60 to 163 g/m²) or up to 3 envelopes. Paper can be loaded up to the maximum paper mark on the sliding paper width guide.

Optional lower tray (LT-5300)

The optional lower tray can hold up to 250 sheets of Letter/A4 size paper (80 g/m²). Paper can be loaded up to the top line of the maximum paper mark on the sliding paper width guide.

The name for the paper trays in the printer driver in this Guide are as follows:

Tray and optional unit	Name
Standard paper tray	Tray 1
Optional lower tray	Tray 2
Multi-purpose tray	MP tray

Paper capacity of the paper trays

	Paper size	Paper types	No. of sheets
Paper Tray (Tray #1)	A4, Letter, Executive, A5, A5 (Long Edge), A6, B5 and B6.	Plain paper, Thin paper and Recycled paper	up to 250 [80 g/m ²]
		Transparency	up to 10
Multi-purpose tray (MP tray)	Width: 69.8 to 216 mm Length: 116 to 406.4 mm	Plain paper, Thin paper, Thick paper, Bond paper, Recycled paper, Envelopes and Labels.	up to 50 [80 g/m²] up to 3 (envelopes)
		Transparency	up to 10
Paper Tray (Tray #2)	A4, Letter, Executive, A5, B5 and B6.	Plain paper, Thin paper and Recycled paper	up to 250 [80 g/m ²]

Recommended paper specifications

The following paper specifications are suitable for this machine.

Basis weight	75-90 g/m ²
Thickness	80-110 μm
Roughness	Higher than 20 sec.
Stiffness	90-150 cm ³ /100
Grain direction	Long grain
Volume resistivity	10e ⁹ -10e ¹¹ ohm
Surface resistivity	10e ⁹ -10e ¹² ohm-cm
Filler	CaCO ₃ (Neutral)
Ash content	Below 23 wt%
Brightness	Higher than 80%
Opacity	Higher than 85%

Handling and using special paper

The machine is designed to work well with most types of xerographic and bond paper. However, some paper variables may have an effect on print quality or handling reliability. Always test samples of paper before purchasing to ensure desirable performance. Store paper in its original packaging and keep it sealed. Keep the paper flat and away from moisture, direct sunlight and heat.

Some important guidelines when selecting paper are:

- Do not use inkjet paper because it may cause a paper jam or damage your machine.
- Preprinted paper must use ink that can withstand the temperature of the machine's fusing process (200 degrees centigrade).
- If you use bond paper, paper having a rough surface or paper that is wrinkled or creased, the paper may exhibit degraded performance.

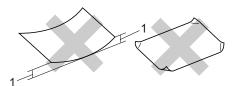

Types of paper to avoid

! IMPORTANT

Some types of paper may not perform well or may cause damage to your machine.

DO NOT use paper:

- · that is highly textured
- · that is extremely smooth or shiny
- · that is curled or warped

1 2mm

- · that is coated or has a chemical finish
- · that is damaged, creased or folded
- that exceeds the recommended weight specification in this guide
- · with tabs or staples
- with letterheads using low temperature dyes or thermography
- · that is multipart or carbonless
- · that is designed for inkjet printing

If you use any of the types of paper listed above, they may damage your machine. This damage is not covered under any Brother warranty or service agreement.

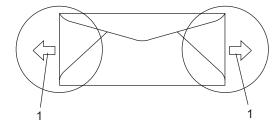

Envelopes

Most envelopes will be suitable for your machine. However, some envelopes may have feed and print-quality problems because of the way they have been made. A suitable envelope should have edges with straight, well-creased folds and the leading edge should not be thicker than two sheets of paper. The envelope should lie flat and not be of baggy or flimsy construction. You should buy quality envelopes from a supplier who understands that you will be using the envelopes in a laser machine.

Envelopes can only be fed from the MP tray. Do not print envelopes using duplex printing. We recommend that you print a test envelope to make sure the print results are what you want before you print or purchase a large quantity of envelopes.

Check the following:

- Envelopes should have a lengthwise sealing flap.
- The sealing flaps should be folded crisply and correctly (irregularly cut or folded envelopes may cause paper jams).
- Envelopes should consist of two layers of paper in the area circled in figure below.

1 Feeding direction

- Envelope joints that are sealed by the manufacturer should be secure.
- We recommend that you do not print within 15 mm of the edges of envelopes.

Types of envelopes to avoid

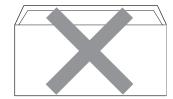

IMPORTANT

DO NOT use envelopes:

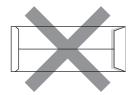

- that are damaged, curled, wrinkled or an unusual shape
- · that are extremely shiny or textured
- with clasps, staples, snaps or tie strings
- · with self-adhesive closures
- that are of a baggy construction
- that are not sharply creased
- that are embossed (have raised writing on them)
- that were previously printed by a laser machine
- · that are pre-printed on the inside
- that cannot be arranged neatly when stacked
- that are made of paper that weighs more than the paper weight specifications for the machine
- with edges that are not straight or consistently square
- with windows, holes, cut-outs or perforations
- with glue on surface as shown in figure below

with double flaps as shown in figure below

- with sealing flaps that have not been folded at purchase
- with sealing flaps as shown in figure below

with each side folded as shown in figure below

If you use any of the types of envelopes listed above, they may damage your machine. This damage is not covered under any Brother warranty or service agreement.

Occasionally you may experience paper feed problems caused by the thickness, size and flap shape of the envelopes you are using.

Labels

The machine will print on most types of labels designed for use with a laser machine. Labels should have an adhesive that is acrylic-based since this material is more stable at the high temperatures in the fuser unit. Adhesives should not come in contact with any part of the machine, because the label stock may stick to the drum unit or rollers and cause jams and print quality problems. No adhesive should be exposed between the labels. Labels should be arranged so that they cover the entire length and width of the sheet. Using labels with spaces may result in labels peeling off and causing serious jams or print problems.

All labels used in this machine must be able to withstand a temperature of 392 degrees Fahrenheit (200 degrees centigrade) for a period of 0.1 seconds.

Label sheets should not exceed the paper weight specifications described in this User's Guide. Labels exceeding this specification may not feed or print correctly and may cause damage to your machine.

Labels can be fed from the MP Tray only.

Types of labels to avoid

Do not use labels that are damaged, curled, wrinkled or an unusual shape.

! IMPORTANT

DO NOT feed part used label sheets. The exposed carrier sheet will damage your machine.

Loading documents

Using the automatic document feeder (ADF)

The ADF can hold up to 50 pages and feeds each sheet individually. Use standard 80 g/m² paper and always fan the pages before putting them in the ADF.

Recommended environment

Temperature: 20 to 30° C Humidity: 50% - 70%

Paper: Xerox Premier 80 g/m² or Xerox

Business 80 g/m²

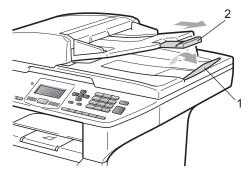

IMPORTANT

- DO NOT leave thick documents on the scanner glass. If you do this, the ADF may jam.
- DO NOT use paper that is curled, wrinkled, folded, ripped, stapled, paperclipped, pasted or taped.
- DO NOT use cardboard, newspaper or fabric.
- To avoid damaging your machine while using the ADF, DO NOT pull on the document while it is feeding.

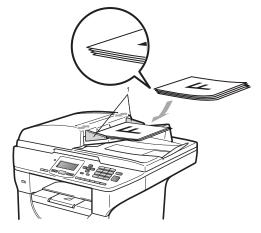

To scan non-standard documents see *Using the scanner glass* on page 21.

Make sure documents written with ink are completely dry. 1 Unfold the ADF document output support flap (1) and the ADF support flap (2).

- 2 Fan the pages well.
- 3 Place your document face up, top edge first in the ADF until you feel it touch the feed roller.
- 4 Adjust the paper guides (1) to fit the width of your document.

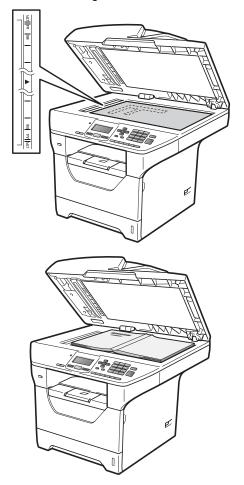

Using the scanner glass

You can use the scanner glass to copy or scan pages of a book or one page at a time. Documents can be up to 215.9 mm wide and 355.6 mm long.

To use the scanner glass, the ADF must be empty.

- 1 Lift the document cover.
- 2 Using the document guidelines on the left, centre the document face down on the scanner glass.

3 Close the document cover.

IMPORTANT

If the document is a book or is thick do not slam the cover or press on it.

General Setup

Paper settings

Paper Type

Set up the machine for the type of paper you are using. This will give you the best print quality.

- 1 Do one of the following:
 - To set the paper type for the MP Tray press Menu, 1, 1, 1, 1.
 - To set the paper type for Tray#1 press **Menu**, **1**, **1**, **1**, **2**.
 - To set the paper type for Tray#2 ¹ press **Menu**, **1**, **1**, **1**, **3** if you installed the optional tray.
 - 1 Tray#2 Only or T2 appears only if the optional tray is installed.
- Press ▲ or ▼ to choose Thin, Plain, Thick, Thicker, Transparency or Recycled Paper.

 Press OK.
- 3 Press Stop/Exit.

You can choose Transparency for Tray #1 and the MP Tray.

Paper Size

You can use ten sizes of paper for printing copies: A4, Letter, Legal, Executive, A5, A5 L, A6, B5, B6 and Folio.

When you change the size of paper in the tray, you will also need to change the setting for paper size at the same time so your machine can fit the document.

- Do one of the following:
 - To set the paper size for the MP Tray press Menu, 1, 1, 2, 1.
 - To set the paper size for Tray#1 press Menu, 1, 1, 2, 2.
 - To set the paper size for Tray#2 ¹ press **Menu**, **1**, **1**, **2**, **3** if you installed the optional tray.
 - Tray#2 Only or T2 appears only if the optional tray is installed.
- Press ▲ or ▼ to choose A4, Letter, Legal, Executive, A5, A5 L, A6, B5, B6, Folio Or Any. Press OK.
- 3 Press Stop/Exit.

- Legal, Folio and Any size appears only when you choose the MP tray.
- If you choose Any for the MP Tray Paper Size: You must choose MP Only for the Tray Use setting. You cannot use the Any Paper Size selection for the MP tray when making N in 1 copies. You must choose one of the other available Paper Size selections for the MP tray.
- A5 L and A6 size are not available for the optional Tray#2.

 If you chose Transparency for the Paper Type you will only be able to choose Letter, Legal, Folio or A4 size paper in step 2.

Tray Use in copy mode

You can change the priority tray that the machine will use for printing copies.

When you choose Tray#1 Only, MP Only or Tray#2 Only ¹, the machine pulls the paper only from that tray. If the selected tray is out of paper, No Paper will appear on the LCD. Insert the paper in the empty tray.

To change the tray setting follow the instructions below:

- 1 Press Menu, 1, 4, 1.
- Press ▲ or ▼ to choose Tray#1 Only, Tray#2 Only ¹, MP Only, MP>T1>T2 ¹ or T1>T2 ¹>MP. Press **OK**.
 - Tray#2 Only or T2 appears only if the optional tray is installed.
- 3 Press Stop/Exit.

- When loading the documents in the ADF and MP>T1>T2 or T1>T2>MP is chosen, the machine looks for the tray with the most suitable paper and pulls paper from that tray. If no tray has suitable paper, the machine pulls paper from the higher priority tray.
- When using the scanner glass, your document is copied from the higher priority tray even if more suitable paper is in another paper tray.

Tray Use in print mode

You can change the default tray the machine will use for printing from your computer.

- 1 Press Menu, 1, 4, 2.
- Press A or V to choose Tray#1 Only,
 Tray#2 Only 1, MP Only,
 MP>T1>T2 1 or T1>T2 1>MP.
 Press OK.
 - Tray#2 Only or T2 appears only if the optional tray is installed.
- 3 Press Stop/Exit.

- The setting in the printer driver will take priority over the setting made on the control panel.
- If the control panel is set to Tray#1 Only, MP Only or Tray#2 Only ¹ and you choose Auto Select in the printer driver, the machine pulls the paper from that tray.
- 1 Tray#2 Only appears only if the optional tray is installed.

Volume settings

Beeper volume

When the beeper is on, the machine will beep when you press a key or make a mistake. You can choose a range of volume levels, from High to Off.

- 1 Press Menu, 1, 2.
- Press A or ▼ to choose Off, Low, Med or
 High.
 Press OK.
- 3 Press Stop/Exit.

Automatic daylight savings time

You can set the machine to change automatically for Daylight Savings Time. It will set itself forward one hour in the Spring, and back one hour in the Autumn.

- 1 Press Menu 6, 2.
- Press ▲ or ▼ to choose on or off.
 Press OK.
- 3 Press Stop/Exit.

Ecology features

Toner Save

You can save toner using this feature. When you set Toner Save to On, prints appear lighter. The default setting is Off.

- 1 Press Menu, 1, 3, 1.
- Press ▲ or ▼ to choose on or off.
 Press OK.
- 3 Press Stop/Exit.

We do not recommend Toner Save for printing Photo or Greyscale images.

Sleep Time

The Sleep Time setting can reduce power consumption by turning off the fuser while the machine is idle.

You can choose how long the machine must be idle (from 000 to 240 minutes) before it goes into sleep mode. When the machine receives computer data or makes a copy, the timer will be reset. The default setting is 005 minutes.

While the machine is in sleep mode the LCD will display Sleep. When printing or copying in sleep mode, there will be a short delay while the fuser warms up.

- 1 Press Menu 1, 3, 2.
- 2 Enter the length of time the machine is idle before entering sleep mode (000 to 240).

 Press **OK**.
- 3 Press Stop/Exit.

To turn *off* sleep mode, press **Secure/Direct** and **Job Cancel** at the same time in step ②. Press ▲ or ▼ to choose off. Press OK.

Turning off the scanner lamp

The scanner lamp stays on for 16 hours before automatically switching off to preserve the life of the lamp and reduce power consumption.

To turn the scanner lamp off manually press the ◀and ▶ keys simultaneously. The scanner lamp will remain turned off until the next time you use the scanning feature.

Turning the lamp off regularly will reduce the lamp's life.

LCD Contrast

You can change the contrast to make the LCD look lighter or darker.

- 1 Press Menu, 1, 5.
- Press to make the LCD lighter. Or, press to make the LCD darker. Press OK.
- 3 Press Stop/Exit.

User Settings List

You can print a list of the settings you programmed.

- 1 Press Menu, 6, 5.
- Press Start.

Network Configuration List

The Network Configuration List is a report listing the current network configuration including the network print server settings.

Node name: Node name appears in the Network Configuration List. The default node name is "BRNXXXXXXXXXXXXX".

- 1 Press Menu, 6, 6.
- 2 Press Start.

4

Security features

Secure Function Lock 2.0

Secure Function Lock lets you restrict Public access to the following machine functions:

- PC Print
- USB Direct Print
- Copy
- Scan

This feature also prevents users from changing the Default settings of the machine by limiting access to the Menu settings.

Before using the security features you must first enter an administrator password.

Access to restricted operations can be enabled by creating a restricted user. Restricted users must enter a user password to use the machine.

Make a careful note of your password. If you forget it you will have to reset the password stored in the machine. For information about how to reset the password call your Brother dealer for service.

Note

- Secure Function Lock can be set manually at the control panel or by using Web Based Management. We recommend using Web Based Management to configure this feature. For more information, see the Network User's Guide on the CD-ROM.
- Only administrators can set limitations and make changes for each user.
- When Print is disabled, PC print jobs will be lost without notification.

Setting the password for the administrator

The password you set in these steps is for the administrator. This password is used to set up users and to turn Secure Function Lock on or off. (See Setting up restricted users on page 29 and Turning Secure Function Lock on/off on page 29.)

- Press Menu, 1, 6.
- 2 Enter a four-digit number for the password using numbers 0-9. Press **OK**.
- Re-enter the password when the LCD shows Verify:.

 Press **OK**.
- 4 Press Stop/Exit.

Changing the password for the administrator

- 1 Press Menu, 1, 6.
- Press A or ▼ to choose Set Password. Press OK.
- 3 Enter the registered four-digit password. Press **OK**.
- 4 Enter a four-digit number for the new password.
 Press **OK**.
- If the LCD shows Verify: re-enter the new password. Press OK.
- 6 Press Stop/Exit.

Setting up public user mode

Public user mode restricts the functions that are available for public users. Public users do not need to enter a password to access the features made available through this setting. You can set up one Public user.

- 1 Press Menu, 1, 6.
- Press ▲ or ▼ to choose Setup ID.
 Press OK.
- 3 Enter the administrator password. Press **OK**.
- 4 Press A or V to choose Public.
 Press OK
- Press ▲ or ▼ to choose Enable or Disable for Copy. Press OK. After you have set Copy, repeat this step for Scan, USB Direct and PC Print. Press OK.
- 6 Press Stop/Exit.

Setting up restricted users

You can set up users with restrictions and a password for functions that are available to them. You can set up more advanced restrictions, such as by page count or PC user login name, through Web Based Management. (For more information, see the *Network User's Guide* on the CD-ROM.) You can set up to 25 restricted users with restrictions and a password.

- 1 Press Menu, 1, 6.
- Press A or V to choose Setup ID. Press OK.
- 3 Enter the administrator password. Press **OK**.
- 4 Press ▲ or ▼ to choose User01.
 Press OK.
- 5 Use the numeric keys to enter the user name. (See *Entering text* on page 116.) Press **OK**.
- 6 Enter a four-digit password for the user. Press **OK**.
- Press ▲ or ▼ to choose Enable or Disable for Copy.

Press OK.

After you have set Copy, repeat this step for Scan, USB Direct and PC Print.

Press OK.

- 8 Repeat steps 4 to 7 for entering each additional user and password.
- 9 Press Stop/Exit.

You cannot use the same name as another user's name.

Turning Secure Function Lock on/off

If you enter the wrong password, the LCD will show Wrong Password. Re-enter the correct password.

Turning Secure Function Lock on

- 1 Press Menu, 1, 6.
- Press ▲ or ▼ to choose Lock Off→On. Press OK.
- 3 Enter your four-digit administrator password.
 Press **OK**

Turning Secure Function Lock off

- 1 Press Menu, 1, 6.
- Press A or V to choose Lock On→Off.
 Press OK.
- 3 Enter your four-digit administrator password.
 Press **OK**

Switching Users

This setting allows you to switch between registered restricted users or Public mode when Secure Function Lock is turned on.

Changing to the restricted user Mode

- 1 Hold down ◀ as you press Secure/Direct.
- Press ▲ or ▼ to choose your name. Press **OK**.
- 3 Enter your four-digit password. Press **OK**.

- If you press the Scan mode key when it is restricted, Access Denied will appear on the LCD and then the machine will ask your name. If you are a restricted user with access to Scan mode, press ▲ or ▼ to choose your name and enter your four-digit password.
- After a restricted user has finished using the machine, it will return to the Public mode within one minute.

Section II

Copy

Making copies

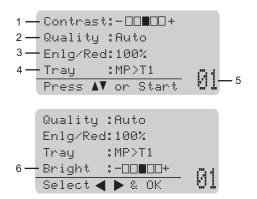

32

5

Making copies

How to copy

Entering copy mode

- 1 Contrast
- 2 Quality
- 3 Copy ratio
- 4 Tray selection
- 5 Number of copies
- 6 Brightness

Making a single copy

- 1 Load your document.
- 2 Press Start.

Making multiple copies

- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Start.

To sort your copies, see *Sorting copies* using the ADF on page 34.

Stop copying

To stop copying, press Stop/Exit.

Copy options (temporary settings)

When you want to quickly change the copy settings temporarily for the next copy, use the temporary **Copy** keys. You can use different combinations.

The machine returns to its default settings one minute after copying.

Enlarging or reducing the image copied

You can choose the following enlargement or reduction ratios:

Press	100%*
Enlarge/ Reduce	97% LTR→A4
Reduce	94% A4→LTR
9	91% Full Page
//	85% LTR→EXE
	83%
	78%
	70% A4→A5
	50%
	Custom(25-400%)
	Auto
	200%
	141% A5→A4
	104% EXE→LTR

* The factory setting is shown in Bold with an asterisk.

When set to Auto, the machine calculates the reduction ratio that best fits the paper size the paper tray is set to. (See *Paper Size* on page 22.)

Auto is only available when using the ADF.

Custom (25-400%) allows you to enter a ratio from 25% to 400%.

To enlarge or reduce the next copy follow the instructions below:

- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Enlarge/Reduce. Press ▶.
- 4 Do one of the following:
 - Press A or V to choose the enlargement or reduction ratio you want.

Press OK.

Press ▲ or ▼ to choose Custom (25-400%).

Press OK.

Use the dial pad to enter an enlargement or reduction ratio from 25% to 400%. (For example, press **5 3** to enter 53%.)

Press **OK**.

5 Press Start.

Page Layout Options 2 in 1(P), 2 in 1(L), 4 in 1(P) or 4 in 1(L) are *not* available with Enlarge/Reduce.

Improving copy quality

You can choose from a range of quality settings. The default setting is Auto.

■ Auto

Auto is the recommended mode for ordinary printouts. Suitable for documents that contain both text and photographs.

■ Text

Suitable for documents containing only text.

■ Photo

Suitable for copying photographs.

To *temporarily* change the quality setting, follow the steps below:

- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Contrast/Quality. Press ▲ or ▼ to choose Quality.
 Press OK.
- Press ◀ or ▶ to choose Auto, Text or Photo. Press OK.
- 6 Press Start.

To change the *default* setting, follow the steps below:

- 1 Press Menu, 2, 1.
- Press ▲ or ▼ to choose the copy quality. Press OK.
- 3 Press Stop/Exit.

Sorting copies using the ADF

You can sort multiple copies. Pages will be stacked in the order 1 2 3, 1 2 3, 1 2 3, and so on.

- 1 Load your document in the ADF.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Sort.
- Press Start.

Changing text copy resolution

You can change the text copy resolution to 1200x600dpi if you are using the scanner glass and have chosen Text as the Copy Quality and an enlargement or reduction ratio of 100%. The default setting is 600dpi.

- 1 Put your document on the scanner glass.
- Press Menu, 2, 2.
- 3 Press ▲ or ▼ to choose the text copy resolution.
 Press OK.
- 4 Press Stop/Exit.

Adjusting Contrast and Brightness

Contrast

Adjust the contrast to help an image look sharper and more vivid.

To *temporarily* change the contrast setting, follow the steps below:

- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Contrast/Quality. Press ▲ or ▼ to choose Contrast. Press OK.

- 4 Press ◀ or ▶ to increase or decrease the contrast.
 Press OK.
- 6 Press Start.

To change the *default* setting follow the steps below:

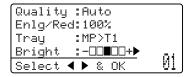

- 1 Press Menu, 2, 4.
- Press ◀ or ▶ to increase or decrease the contrast. Press OK.
- 3 Press Stop/Exit.

Brightness

Adjust the copy brightness to make copies darker or lighter.

To *temporarily* change the copy brightness setting, follow the steps below:

- Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press A or ▼ to choose Bright.

- Press ▶ to make a lighter copy or press ◀ to make a darker copy. Press OK.
- 5 Press Start.

To change the *default* setting follow the steps below:

- 1 Press Menu, 2, 3.
- Press ► to make a lighter copy or press to make a darker copy. Press OK.
- 3 Press Stop/Exit.

Making N in 1 copies (page layout)

You can reduce the amount of paper used when copying by using the N in 1 copy feature. This allows you to copy two or four pages onto one page, which lets you save paper.

IMPORTANT

- Please make sure the paper size is set to Letter, A4, Legal ¹ or Folio ¹.
- (P) means Portrait and (L) means Landscape.
- You cannot use the Enlarge/Reduce setting with the N in 1 feature.
- You can choose Legal and Folio for MP Tray only.
- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press N in 1.
- Press ▲ or ▼ to choose 2 in 1 (P),
 2 in 1 (L), 4 in 1 (P),
 4 in 1 (L) or Off(1 in 1).
 Press OK.
- 5 Press **Start** to scan the page. If you placed the document in the ADF, the machine scans the pages and starts printing.

If you are using the scanner glass, go to step **6**.

6 After the machine scans the page, press **1** to scan the next page.

Flatbed Copy:
Next Page?
▲ 1.Yes
▼ 2.No
Select ▲▼ or OK

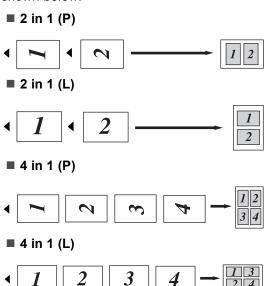

Put the next page on the scanner glass. Press **OK**.

Repeat steps **6** and **7** for each page of the layout.

8 After all the pages have been scanned, press **2** in step **6** to finish.

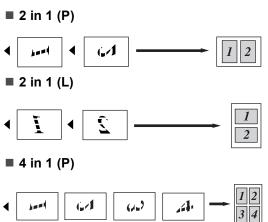

If you are copying from the ADF:

Insert your document face up in the direction shown below:

If you are copying from the scanner glass:

Insert your document face down in the direction shown below:

■ 4 in 1 (L)

Duplex (2-sided) copying

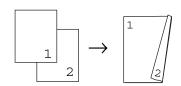

If you want to use the duplex copy feature, load your document in the ADF.

If you get an Out of Memory message while you are making duplex copies, try installing extra memory. (See *Out of memory message* on page 39.)

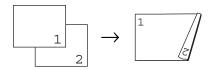

Duplex Copy (long edge flip)

■ 1 sided → 2 sided

Portrait

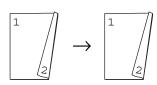

Landscape

■ 2 sided → 2 sided

Portrait

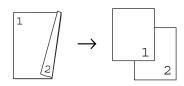

Landscape

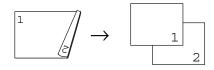

■ 2 sided - 1 sided

Portrait

Landscape

- Load your document.
- 2 Enter the number of copies (up to 99) using the dial pad.
- 3 Press **Duplex** and **▲** or **▼** to choose

1sided → 2sided, 2sided → 2sided or 2sided → 1sided.

Duplex ▲1sided → 2sided 2sided → 2sided ▼2sided → 1sided Select ▲▼ or OK

Press OK.

4 Press **Start** to copy the document.

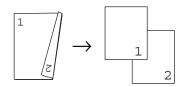

Duplex copy using a 2-sided legal size document is not available.

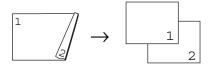

Advanced Duplex Copy (short edge)

■ Advanced 2 sided - 1 sided

Portrait

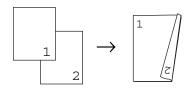

Landscape

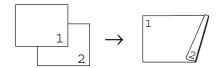

■ Advanced 1 sided - 2 sided

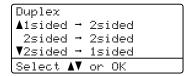

Portrait

Landscape

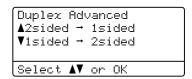

- 1 Load your document.
- 2 Enter the number of copies (up to 99) using the dial pad.
- 3 Press **Duplex** and **△** or **▼** to choose Advanced.

Press OK.

4 Press A or ▼ to choose 2sided → 1sided or 1sided → 2sided.

Press OK.

5 Press **Start** to copy the document.

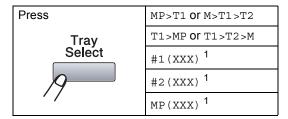

Duplex copy using a 2-sided legal size document is not available.

Tray selection

You can change the Tray Use only for the next copy.

- 1 Load your document.
- 2 Use the dial pad to enter the number of copies (up to 99).
- 3 Press Tray Select.
- Press ◀ or ▶ to choose the MP>T1, T1>MP, #1 (XXX) ¹ or MP (XXX) ¹. Press **OK**.
- 6 Press Start.

1 XXX is the paper size you set in **Menu**, **1**, **1**, **2**.

- T2 or #2 appears only if the optional paper tray is installed.
- To change the default setting for Tray Select, see Tray Use in copy mode on page 23.

Out of memory message

If the memory becomes full while you are making copies, the LCD message will guide you through the next step.

If you get an Out of Memory message while scanning a subsequent page, you will have the option to press **Start** to copy the pages scanned so far, or to press **Stop/Exit** to cancel the operation.

Chapter 5

Section III

Direct printing

Printing data from a USB Flash memory drive or a digital camera supporting mass storage 42

6

Printing data from a USB Flash memory drive or a digital camera supporting mass storage

With the Direct Print feature, you do not need a computer to print data. You can print by just plugging your USB Flash memory drive into the machine's USB direct interface. You can also connect and print directly from a camera set to USB mass storage mode.

- Some USB Flash memory drives may not work with the machine.
- If your camera is in PictBridge mode, you cannot print data. Please refer to the documentation supplied with your camera to switch from PictBridge mode to mass storage mode.

Supported file formats

Direct Print supports the following file formats:

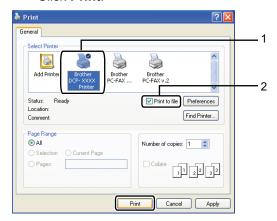

- PDF version 1.7 ¹
- JPEG
- Exif + JPEG
- PRN (created by Brother driver)
- TIFF (scanned by all MFC or DCP Brother models)
- PostScript[®] 3TM (created by the Brother BRScript3 printer driver)
- XPS version 1.0
- PDF data including a JBIG2 image file, a JPEG2000 image file, or transparency files are not supported.

Creating a PRN or PostScript[®] 3[™] file for direct printing

The screens in this section may vary depending on your application and operating system.

- 1 From the menu bar of an application, click **File**, then **Print**.
- 2 Choose Brother DCPXXXX Printer (1) and check the Print to file box (2). Click Print.

Choose the folder you want to save the file to and enter the file name if you are prompted to.

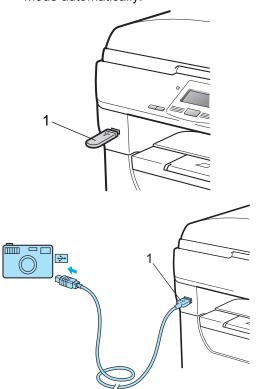

If you are prompted for a file name only, you can also specify the folder you want to save the file in by entering the directory name. For example:

C:\Temp\FileName.prn

If you have a USB Flash memory drive or digital camera connected to your computer, you can save the file directly to the USB Flash memory drive.

Printing data directly from the USB Flash memory drive or a digital camera supporting mass storage

1 Connect your USB Flash memory drive or digital camera to the USB direct interface (1) on the front of the machine. Your machine will enter Direct Print mode automatically.

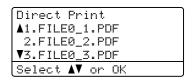

- If the Direct Print setting of Secure Function Lock 2.0 is set to Disable for all users (including Public mode settings), Not Available will appear on the LCD and then the machine will go back to the Ready mode. You cannot access the Direct Print function.
- If the current restricted user ID you are using is restricted for the Direct Print function from Secure Function Lock 2.0, but other restricted users (including Public mode settings) are allowed access,
 Access Denied will appear on the LCD and then the machine will ask your name.

If you are a restricted user with access to Direct Print, press ▲ or ▼ to choose your name and enter your four-digit password.

 If your administrator has set a page limit for Direct Print and the machine has already reached the maximum number of pages, the LCD will show
 Limit Exceeded when you insert a
 USB flash memory drive or digital camera.

Press ▲ or ▼ to choose the folder name or file name you want to print.

Press OK.

If you have chosen the folder name, press ▲ or ▼ to choose the file name you want to print.

Press OK.

- Your digital camera must be switched from PictBridge mode to mass storage mode.
- If you want to print an index of the files, choose Index Print, and then press
 OK. Press Start to print the data.
- File names that are stored in your USB Flash memory drive can be displayed using the following characters on the LCD:
 ABCDEFGHIJKLMNOPQRSTUVWXYZ0123456789\$%'`-@{}~!#()&^
- 3 Do one of the following:
 - Press ▲ or ▼ to choose a setting you need to change and press OK, and then press ▲ or ▼ to choose an option for the setting and press OK.
 - If you do not need to change the current default settings, go to step 4.

Print File Set ▲Paper Size Media Type ▼Multiple Page Select ▲▼ or OK

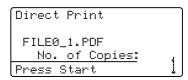

· You can choose the following settings:

Paper Size
Media Type
Multiple Page
Orientation
Duplex
Collate
Tray Use
Print Quality
PDF Option

 Depending on the file type, some of these settings may not appear.

- 4 Press Start if you have finished.
- Press the dial pad key to enter the number of copies you want. Press OK.

6 Press **Start** to print the data.

IMPORTANT

- To prevent damage to your machine, DO NOT connect any device other than a digital camera or USB Flash memory drive to the USB direct interface.
- DO NOT remove the USB Flash memory drive or digital camera from the USB direct interface until the machine has finished printing.

- If you want to change the default setting for the paper tray to feed paper from, press Menu, 1, 4, 2 to change the paper tray setting.
- You can change the default settings for Direct Print by using the control panel when the machine is not in the Direct Print mode. Press Menu, 4 to enter the USB Direct I/F menu. (See Entering text on page 116.)

Understanding the error messages

Once you are familiar with the types of errors that can occur while you print data from the USB Flash memory drive with Direct Print, you can easily identify and troubleshoot any problems.

■ Out of Memory

This message will appear if you are working with images that are too large for the machine's memory.

■ Unusable Device

This message will appear if you connect an incompatible or broken device to the USB direct interface. To clear the error, unplug the device from the USB direct interface.

(See *Error and maintenance messages* on page 75 for the detailed solution.)

Chapter 6

Section IV

Software

Software and Network features

48

7

Software and Network features

The HTML User's Guide on the CD-ROM includes **User's Guide**,

Software User's Guide and

Network User's Guide for features available when connected to a computer (for example, printing and scanning). These guides have easy to use links that, when clicked, will take you directly to a particular section.

You can find information on these features:

- Printing
- Scanning
- ControlCenter3 (Windows[®])
- ControlCenter2 (Macintosh®)
- Network Printing
- Network Scanning

See Accessing the Software User's Guide and Network User's Guide on page 3.

How to read the HTML User's Guide

This is a quick reference for using the HTML User's Guide.

Windows[®]

If you have not installed the software, see *Viewing documentation (Windows®)* on page 3.

1 From the Start menu, point to Brother, DCP-XXXX from the programs group, then click
User's Guides in HTML format.

Click on the manual you want (USER'S GUIDE, SOFTWARE USER'S GUIDE or NETWORK USER'S GUIDE) from the Top Menu.

Click the heading you would like to view from the list at the left of the window.

Macintosh®

- 1 Make sure your Macintosh® is turned on. Insert the Brother CD-ROM into your CD-ROM drive.
- 2 Double-click the **Documentation** icon.
- Oouble-click your language folder, and then double-click the top.html file.
- 4 Click on the manual you want (USER'S GUIDE, SOFTWARE USER'S GUIDE or NETWORK USER'S GUIDE) in the top menu, and then click the heading you would like to read from the list at the left of the window.

Menu and features	104
Specifications	118
Glossary	132

A

Safety and legal

Choosing a location

Put your machine on a flat, stable surface that is free of vibration and shocks, such as a desk. Put the machine near a standard grounded electrical socket. Choose a location where the temperature remains between 10°C and 32.5°C and the humidity is between 20% to 80% (without condensation).

A WARNING

DO NOT expose the machine to direct sunlight, excessive heat, open flames, salty or corrosive gasses, moisture or dust.

DO NOT place the machine near heaters, air conditioners, refrigerators, water or chemicals.

A CAUTION

Avoid placing your machine in a high-traffic area.

Avoid placing your machine on a carpet.

DO NOT connect your machine to electrical socket controlled by wall switches or automatic timers, or to the same circuit as large appliances that might disrupt the power supply.

Disruption of power can wipe out information in the machine's memory.

Avoid interference sources, such as other cordless telephone systems or speakers.

Make sure cables leading to the machine do not constitute a trip hazard.

To use the machine safely

Please keep these instructions for later reference and read them before attempting any maintenance.

WARNING

There are high voltage electrodes inside the machine. Before you clean the inside of the machine, make sure you have unplugged the power cord from the electrical socket. Doing this will prevent an electrical shock.

DO NOT handle the plug with wet hands. Doing this might cause an electrical shock. Always make sure the plug is fully inserted.

This product must be installed near an electrical socket that is easily accessible. In case of an emergency, you must unplug the power cord from the electrical socket to shut off the power completely.

Plastic bags are used in the packing of your machine and drum unit. To avoid the danger of suffocation, keep these bags away from babies and children.

DO NOT use flammable substances, any type of spray or any organic solvent/liquids contains alcohol or ammonia to clean the inside or outside of the machine. Doing this may cause a fire or electrical shock. See *Routine maintenance* on page 86 for how to clean the machine.

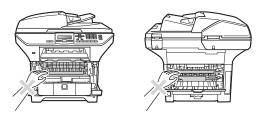

DO NOT use a vacuum cleaner to clean up scattered toner. Doing this might cause the toner dust to ignite inside the vacuum cleaner, potentially starting a fire. Please carefully clean the toner dust with a dry, lint-free soft cloth and dispose of it according to local regulations.

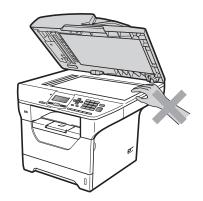

A CAUTION

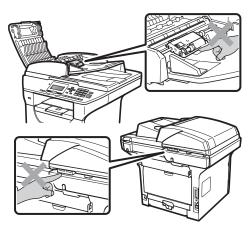

After you have just used the machine, some internal parts of the machine will be extremely hot. When you open the front or back cover of the machine, DO NOT touch the shaded parts shown in the illustration.

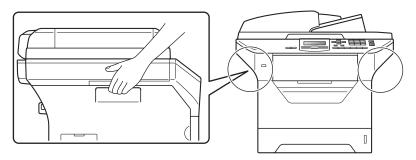

To prevent injuries, be careful not to put your hands on the edge of the machine under the document cover as shown in the illustration.

To prevent injuries, be careful not to put your fingers in the areas shown in the illustrations.

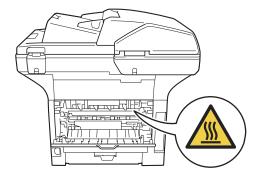

When you move the machine, grasp the side hand holds that are under the scanner.

! IMPORTANT

The fuser unit is marked with a Caution label. Please DO NOT remove or damage the label.

Important safety instructions

- 1 Read all of these instructions.
- 2 Save them for later reference.
- 3 Follow all warnings and instructions marked on the product.
- 4 Unplug this product from the wall socket before cleaning inside of the machine. DO NOT use liquid or aerosol cleaners. Use a dry, lint-free soft cloth for cleaning.
- 5 DO NOT place this product on an unstable cart, stand, or table. The product may fall, causing serious damage to the product.
- 6 Slots and openings in the casing at the back or bottom are provided for ventilation. To ensure reliable operation of the product and to protect it from overheating, these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should never be placed near or over a radiator or heater. This product should never be placed in a built-in installation unless adequate ventilation is provided.
- 7 This product should be connected to an AC power source within the range indicated on the rating label. DO NOT connect it to a DC power source or inverter. If you are not sure, contact a qualified electrician.
- 8 This product is equipped with a 3-wire grounded plug. This plug will only fit into a grounded power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, call your electrician to replace your obsolete outlet. DO NOT defeat the purpose of the grounded plug.
- 9 Use only the power cord supplied with this machine.
- 10 DO NOT allow anything to rest on the power cord. DO NOT place this product where people can walk on the cord.
- 11 The power cord, including extensions, should be no longer than 16.5 feet (5 metres).
 - DO NOT share the same power circuit with other high powered appliances, such as an air conditioner, copier, shredder, and so on. If you cannot avoid using the printer with these appliances, we recommend that you use a voltage transformer or a high-frequency noise filter.
 - Use a voltage regulator if the power source is not stable.
- 12 DO NOT place anything in front of the machine that will block printed pages. DO NOT place anything in the path of printed pages.
- 13 Wait until pages have exited the machine before picking them up.

- 14 Unplug this product from the power socket and refer all servicing to Brother Authorized Service Personnel under the following conditions:
 - When the power cord is damaged or frayed.
 - If liquid has been spilled into the product.
 - If the product has been exposed to rain or water.
 - If the product does not operate normally when the operating instructions are followed. Adjust only those controls that are covered by the operating instructions. Incorrect adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.
 - If the product has been dropped or the casing has been damaged.
 - If the product exhibits a distinct change in performance, indicating a need for service.
- 15 To protect your product against power surges, we recommend the use of a power protection device (Surge Protector).
- 16 To reduce the risk of fire, electric shock and injury to people, note the following:
 - DO NOT use this product near appliances that use water, a swimming pool or in a wet basement.
 - DO NOT use the machine during an electrical storm. (There is the remote possibility of an electrical shock.)
 - DO NOT use this product in the vicinity of a gas leak.

Each company whose software title is mentioned in this manual has a Software License Agreement specific to its proprietary programs.

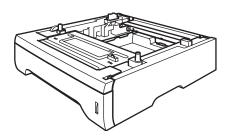

All other trademarks are the property of their respective owners.

Options

Optional paper tray (LT-5300)

An optional lower tray can be installed, and it can hold up to 250 sheets of 80 g/m² paper.

When an optional tray is installed, the machine can hold up to 550 sheets of plain paper. If you want to buy an optional lower tray unit, contact your Brother dealer.

For setup, see the instructions that we have supplied with the lower tray unit.

Memory board

DCP-8085DN has 64 MB of standard memory and one slot for optional memory expansion. You can expand the memory up to 576 MB by installing small outline dual inline memory modules (SO-DIMMs). When you add the optional memory, it increases the performance for both copier and printer operations.

In general, the SO-DIMMs with the following specifications:

Type: 144 pin and 64 bit output

CAS latency: 2

Clock frequency: 100 MHz or more Capacity: 64, 128, 256 or 512 MB

Height: 31.75 mm

Dram Type: SDRAM 2 Bank

For purchasing information and part numbers visit the Buffalo Technology website:

http://www.buffalo-technology.com/

- There might be some SO-DIMMs that will not work with the machine.
- For more information, contact your Brother dealer.

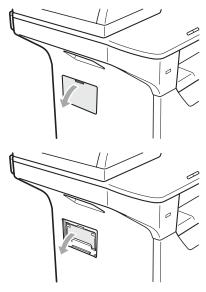

Installing extra memory

- 1 Turn off the machine's power switch.
- Disconnect the interface cable from the machine, and then unplug the power cord from the electrical socket.

Be sure to turn off the machine's power switch before you install or remove the SO-DIMM.

Remove the SO-DIMM cover and interface access cover.

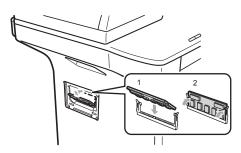

4 Unpack the SO-DIMM and hold it by its edges.

! IMPORTANT

To prevent damage to the machine from static electricity, DO NOT touch the memory chips or the board surface.

Hold the SO-DIMM by the edges and align the notches in the SO-DIMM with the protrusions in the slot.
Insert the SO-DIMM diagonally (1), then tilt it toward the interface board until it clicks into place (2).

- 6 Put the interface access cover and the SO-DIMM cover back on.
- 7 Plug the machine's power cord back into the electrical socket first, and then connect the interface cable.
- 8 Turn on the machine's power switch.

To make sure that you have installed the SO-DIMM properly, you can print the user settings page that shows the current memory size. (See *User Settings List* on page 26.)

C

Troubleshooting and routine maintenance

Troubleshooting

If you think there is a problem with your machine, check the chart below and follow the troubleshooting tips.

Most problems can be easily resolved by yourself. If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. Visit us at http://solutions.brother.com.

If you are having difficulty with your machine

Check the chart below and follow the troubleshooting tips.

Copy difficulties

Difficulties	Suggestions
Cannot make a copy.	Contact your administrator to check your Secure Function Lock Settings.
Vertical black line appears in copies.	Black vertical lines on copies are typically caused by dirt or correction fluid on the glass strip, or the corona wire for printing is dirty. (See <i>Cleaning the scanner</i> on page 87 and <i>Cleaning the corona wire</i> on page 90.)

Printing difficulties

Difficulties	Suggestions
No printout.	■ Check that the machine is plugged in and the power switch is turned on.
	Check that the toner cartridge and drum unit are installed correctly. (See Replacing the drum unit on page 98.)
	■ Check the interface cable connection on both the machine and your computer. (See the <i>Quick Setup Guide</i> .)
	■ Check that the correct printer driver has been installed and chosen.
	Check to see if the LCD is showing an error message. (See Error and maintenance messages on page 75.)
	■ Check the machine is online: (Windows Vista [®]) Click the Start button, Control Panel , Hardware and Sound , and then Printers . Right-click Brother DCP-XXXX Printer . Make sure that Use Printer Offline is unchecked. (Windows [®] XP and Windows Server [®] 2003) Click the Start button and choose Printers . Right-click Brother DCP-XXXX Printer . Make
	sure that Use Printer Offline is unchecked. (Windows [®] 2000) Click the Start button and choose Settings and then Printers . Right-click Brother DCP-XXXX Printer . Make sure that Use Printer Offline is unchecked.
	■ Contact your administrator to check your Secure Function Lock settings.
The machine prints unexpectedly or it prints garbage.	Pull out the paper tray and wait until the machine stops printing. Then turn off the machine and disconnect from the power for several minutes.
	Check the settings in your application to make sure it is set up to work with your machine.
	If you are using the parallel port connection, check that the port is BRMFC and not LPT1.

Printing difficulties (continued)

Difficulties	Suggestions
The machine prints the first couple of pages correctly, then some pages have text missing.	 Check the settings in your application to make sure that it is set up to work with your machine. Your computer is not recognising the machine's input buffer's full signal. Make sure that you connected the interface cable correctly. (See the <i>Quick Setup Guide</i>.)
The headers or footers appear when the document displays on the screen but they do not show up when it is printed.	There is an unprintable area on the top and bottom of the page. Adjust the top and bottom margins in your document to allow for this.
The machine does not print on both sides of the paper even though the printer driver setting is Duplex.	Check the paper size setting in the printer driver. You need to choose A4 size of paper.
The machine is not printing or has stopped printing and the machine's status LED is yellow.	Press Job Cancel . As the machine cancels the job and clears it from the memory it may produce an incomplete printout.

Scanning difficulties

Difficulties	Suggestions
TWAIN errors appear while scanning.	Make sure that the Brother TWAIN driver is chosen as the primary source. In PaperPort™ 11SE, click File , Scan or Get Photo and choose the Brother TWAIN driver .
OCR does not work.	Try increasing the scanning resolution.
Network scanning does not work.	See Network difficulties on page 65.

Software difficulties

Difficulties	Suggestions
Cannot install software or print.	Run the Repair MFL-Pro Suite program on the CD-ROM. This program will repair and reinstall the software.
Cannot perform '2 in 1' or '4 in 1' printing.	Check that the paper size setting in the application and in the printer driver are the same.
The machine does not print from Adobe [®] Illustrator [®] .	Try to reduce the print resolution. (See <i>Advanced tab</i> in the <i>Software User's Guide</i> on the CD-ROM.)
'Unable to write to LPT1', 'LPT1 already in use' or 'DCP is Busy' error message appears.	Make sure that the machine is on (plugged into the electrical socket and the power switch turned on) and that it is connected directly to the computer using the IEEE-1284 bi-directional parallel cable. The cable must not go through another peripheral device (such as a Zip Drive, external CD-ROM Drive, or switch box).
	Make sure that the LCD does not show an error message.
	Make sure no other device drivers, which also communicate through the parallel port, are running automatically when you turn on the computer (such as, drivers for Zip Drives, external CD-ROM Drive, etc.) Suggested areas to check: (Load=, Run=command lines in the win.ini file or the Setup Group)
	Check with your computer manufacturer to confirm that the computer's parallel port settings in the BIOS are set to support a bi-directional machine; i.e. (Parallel Port Mode – ECP)

Paper handling difficulties

Difficulties	Suggestions
The machine does not load paper.	■ If there is no paper, load a new stack of paper into the paper tray.
The LCD shows No Paper or a Paper Jam message.	If there is paper in the paper tray, make sure it is straight. If the paper is curled, you should straighten it. Sometimes it is helpful to remove the paper, turn the stack over and put it back into the paper tray.
	■ Reduce the amount of paper in the paper tray, and then try again.
	■ Check that the MP tray mode is not chosen in the printer driver.
	■ If the LCD shows Paper Jam message and you still have a problem, see Paper jams on page 80.
The machine does not feed paper from the MP tray.	■ Fan the paper well and put it back in the tray firmly.
	■ Make sure that MP tray mode is chosen in the printer driver.
How do I print on envelopes?	You can load envelopes from the MP tray. Your application must be set up to print the envelope size you are using. This is usually done in the Page Setup or Document Setup menu of your application. (See your application's manual for more information.)
What paper can I use?	You can use thin paper, plain paper, thick paper, bond paper, recycled paper, envelopes, labels and transparencies that are made for laser machines. (For details, see <i>Acceptable paper and other print media</i> on page 14.)
There is a paper jam.	(See Paper jams on page 80.)

Print quality difficulties

Difficulties	Suggestions
Printed pages are curled.	Low quality thin or thick paper or not printing on the recommended side of the paper could cause this problem. Try turning over the stack of paper in the paper tray.
	Make sure that you choose the Paper Type that suits the print media type you are using. (See Acceptable paper and other print media on page 14.)
Printed pages are smeared.	The Paper Type setting may be incorrect for the type of print media you are using, or the print media may be too thick or have a rough surface. (See Acceptable paper and other print media on page 14 and Basic tab in the Software User's Guide on the CD-ROM.)
Printouts are too light.	■ If this problem occurs when making copies, set Toner Save mode to Off in the machine menu settings. (See <i>Toner Save</i> on page 24.)
	Set Toner Save mode to Off in the Advanced tab in the printer driver. (See Advanced tab in the Software User's Guide on the CD-ROM.)

Network difficulties

Difficulties	Suggestions
Cannot print over a wired Network.	If you are having Network problems see the <i>Network User's Guide</i> on the CD-ROM for more information.
	Make sure your machine is powered on and is on-line and in the Ready mode. Print the Network Configuration list to see your current Network settings. (See <i>Network Configuration List</i> on page 26.) Reconnect the LAN cable to the hub to verify that the cable and network connections are good. If possible, try connecting the machine to a different port on your hub using a different cable. If the connections are good, the lower LED of the back panel of the machine will be green.

Network difficulties (continued)

Difficulties	Suggestions	
The network scanning feature does not work. The network printing feature does not work.	(Windows®) The firewall setting on your PC may be rejecting the necessary network connection. Follow the instructions below to configure Windows® Firewall. If you are using other personal firewall software, see the user's guide for your software or contact the software manufacturer.	
	(Windows [®] XP SP2)	
	Click the Start button, Control Panel, Network and Internet Connections and then Windows Firewall. Make sure that Windows Firewall on the General tab is set to On.	
	Click the Advanced tab and Settings button of the Network Connection Settings.	
	3 Click the Add button.	
	To add port 54925 for network scanning, enter the information below: 1. In Description of service: Enter any description, for example "Brother Scanner". 2. In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network: Enter "Localhost". 3. In External Port number for this service: Enter "54925". 4. In Internal Port number for this service: Enter "54925". 5. Make sure UDP is chosen. 6. Click OK.	
	5 Click the Add button.	
	6 If you still have trouble with your network connection, click the Add button.	
	To add port 137 for network scanning and network printing, enter the information below: 1. In Description of service: - Enter any description, for example "Brother network scanning" 2. In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network: Enter "Localhost". 3. In External Port number for this service: Enter "137". 4. In Internal Port number for this service: Enter "137". 5. Make sure UDP is chosen. 6. Click OK.	
	8 Make sure if the new setting is added and is checked, and then click OK .	

Network difficulties (continued)

Difficulties	Suggestions		
The network scanning feature does not work.	(Windows Vista®): Click the Start button, Control Panel, Network and Internet, Windows Firewall and click Change settings.		
The network printing feature does not work.			
(continued)	2 When the User Account Control screen appears, do the following.		
	Users who have administrator rights: Click Continue.		
	For users who do not have administrator rights: Enter the administrator password and click OK .		
	3 Make sure that Windows Firewall on the General tab is set to On.		
	4 Click the Exceptions tab.		
	5 Click the Add port button.		
	To add port 54925 for network scanning, enter the information below: 1. In Name: Enter any description. (for example "Brother Scanner") 2. In Port number: Enter "54925". 3. Make sure UDP is chosen. Then click OK.		
	7 Click the Add port button.		
	8 Make sure that the new setting is added and is checked, and then click Apply.		
	If you still have trouble with your network connection such as network scanning or printing, check File and Printer Sharing box in the Exceptions tab and then click Apply .		
Your computer cannot find your machine.	(Windows®) The firewall setting on your PC may be rejecting the necessary network connection. (For details, see the instructions above.) (Macintosh®) Re-select your machine in the Device Selector application located in Macintosh HD/Library/Printers/Brother/Utilities/DeviceSelector or from the Model pop-up menu of ControlCenter2.		

Improving the print quality

Examples of poor print	Recommendation		
quality			
ABCDEFGH	Make sure that you use paper that meets our specifications. A rough surfaced paper or thick print media can cause the problem. (See Acceptable paper and other print media on page 14.)		
abcdefghijk ABCD abcde	Make sure that you choose the appropriate media type in the printer driver or in the machine's Paper Type menu setting. (See Acceptable paper and other print media on page 14 and Basic tab in the Software User's Guide on the CD-ROM.)		
White lines across the page	The problem may disappear by itself. Print multiple pages to clear this problem, especially if the machine has not been used for a long time.		
	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)		
	■ Wipe the laser scanner windows with a dry, lint-free soft cloth. (See Cleaning the laser scanner window on page 88.)		
ABCDEFGH abcdefghijk	Make sure that a torn sheet of paper is not inside the machine covering the scanner window.		
abcde	■ The toner cartridge may be damaged. Put in a new toner cartridge. (See <i>Replacing a toner cartridge</i> on page 95.)		
White lines down the page	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)		
	Make sure that you use paper that meets our specifications. (See Acceptable paper and other print media on page 14.)		
B	■ Choose Thick paper mode in the printer driver, choose Thick in the machine's Paper Type menu setting or use thinner paper than you are currently using. (See <i>Paper Type</i> on page 22 and <i>Basic tab</i> in the <i>Software User's Guide</i> on the CD-ROM.)		
	■ Check the machine's environment. Conditions such as high humidity can cause hollow print. (See <i>Choosing a location</i> on page 52.)		
Hollow print	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)		
	Make sure that you use paper that meets our specifications. (See Acceptable paper and other print media on page 14.)		
ABCDEFGH abcdefghijk ABCD	Check the machine's environment. Conditions such as high temperatures and high humidity can increase the amount of background shading. (See Choosing a location on page 52.)		
abcde 01234	■ The toner cartridge may be damaged. Put in a new toner cartridge. (See <i>Replacing a toner cartridge</i> on page 95.)		
Grey background	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)		

Examples of poor print quality	Recommendation	
ABCDEFGH abodefghijk	 Make sure that the paper or other print media is loaded correctly in the paper tray and that the guides are not too tight or too loose against the paper stack. Set the paper guides correctly. (See Loading paper in the standard 	
ABCD abcde 01234	paper tray on page 10.) ■ If you are using the MP tray, see Loading paper in the multi-purpose	
Page skewed	tray (MP tray) on page 11. ■ The paper tray may be too full.	
, and the second	■ Check the paper type and quality. (See Acceptable paper and other print media on page 14.)	
B B B	Make sure that you use paper that meets our specifications. Rough- surfaced paper or thick paper may cause the problem. (See Acceptable paper and other print media on page 14.)	
	Make sure that you choose the correct media type in the printer driver or in the machine's Paper Type menu setting. (See Acceptable paper and other print media on page 14 and Basic tab in the Software User's Guide on the CD-ROM.)	
	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
	The fuser unit may be contaminated. Call your Brother dealer for service.	
ABCDEFGH abcdefghijk ABCD abcde 01234	■ Check the paper type and quality. (See Acceptable paper and other print media on page 14.)	
	 Make sure that paper is loaded correctly. (See Loading paper in the standard paper tray on page 10.) 	
	Turn over the stack of paper in the tray or rotate the paper 180° in the input tray.	
Wrinkles or creases		

Examples of poor print quality	Recommendation		
Envelope creases	1 Open the back cover. 2 Pull the blue lever until the mark (*) reaches beside the mark (*) as shown below. 3 Resend the print job.		
	When you have finished printing, open the back cover and reset the two blue levers back to their original position.		
ABCDEFGH abcdefghijk ABCD abcde 01234 Curled or wavy	 Check the paper type and quality. High temperatures and high humidity will cause paper to curl. If you do not use the machine often, the paper may have been in the paper tray too long. Turn over the stack of paper in the paper tray. Also, fan the paper stack and then rotate the paper 180° in the paper tray. 		

Examples of poor print Recommendation quality ■ Turn the paper over in the paper tray, and print again. (Excluding Letterhead paper) If the problem remains, switch the Anti-Curl Lever as follows: **ABCDEFGH** abcdefghijk 1 Open the back cover. ABCD abcde 01234 Curled 2 Lift the lever (1) and slide the lever (2) in the direction of the arrow. ■ Lift up the Output Tray Support Flap (1). ■ Choose Reduce Paper Curl mode in the printer driver. (See Other Print Options (for Windows®) or Print Settings (for Macintosh®) in the Software User's Guide on the CD-ROM.)

Examples of poor print quality	Recommendation	
94 mm	■ Make ten copies of a blank, white sheet of paper. (See <i>Making multiple copies</i> on page 32.) If the problem is not solved, the drum unit may have glue from a label stuck on the OPC drum surface. Clean the drum unit. (See <i>Cleaning the drum unit</i> on page 91.)	
94 mm	■ The drum unit may be damaged. Put in a new drum. (See Replacing the drum unit on page 98.)	
White Spots on black text and graphics at 94 mm intervals		
94 mm 94 mm		
Black Spots at 94 mm intervals		
ABCDEFGH	■ Check the machine's environment. Conditions such as humidity, high temperatures, and so on, may cause this print fault. (See <i>Choosing a location</i> on page 52.)	
abcdefghijk ABCD abcde 01234	■ If the whole page is too light, Toner Save mode may be on. Turn off Toner Save mode in the machine menu settings or Toner Save mode in the printer Properties of the driver. (See <i>Toner Save</i> on page 24 or <i>Advanced tab</i> in the <i>Software User's Guide</i> on the CD-ROM.)	
Faint	■ Clean the scanner window and the corona wire of the drum unit. (See Cleaning the laser scanner window on page 88 and Cleaning the corona wire on page 90.)	
	■ The toner cartridge may be damaged. Put in a new toner cartridge. (See <i>Replacing a toner cartridge</i> on page 95.)	
	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
ABCDEFGH	Make sure that you use paper that meets our specifications. Rough- surfaced paper may cause the problem. (See Acceptable paper and other print media on page 14.)	
abcdefghijk ABCD	■ Clean the corona wire and the drum unit. (See Cleaning the corona wire on page 90 and Cleaning the drum unit on page 91.)	
abcde 01234	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
Toner specks	■ The fuser unit may be contaminated. Call your Brother dealer for service.	

Examples of poor print quality	Recommendation	
	■ Clean the corona wire inside the drum unit by sliding the blue tab. Be sure to return the blue tab to the home position (▲). (See Cleaning the corona wire on page 90.)	
	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
	The fuser unit may be contaminated. Call your Brother dealer for service.	
All black		
	Make sure that you use paper that meets our specifications. (See Acceptable paper and other print media on page 14.)	
ABCDEFGH- abcdefghijk ABCD-	If you use label sheets for laser machines, the glue from the sheets may sometimes stick to the OPC drum surface. Clean the drum unit. (See Cleaning the drum unit on page 91.)	
abcde 01234	Do not use paper that has clips or staples because they will scratch the surface of the drum.	
Black toner marks across the	If the unpacked drum unit is in direct sunlight or room light, the unit may be damaged.	
page	■ The toner cartridge may be damaged. Put in a new toner cartridge. (See <i>Replacing a toner cartridge</i> on page 95.)	
	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
ABC DEFGH	■ Clean the laser scanner window and the corona wire inside the drum unit. (See Cleaning the laser scanner window on page 88 and Cleaning the corona wire on page 90.)	
abcdefghijk ABCD	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
ab cde 01 234		
Line across the page		
AB¢DEFGH	■ Clean the corona wire inside the drum unit by sliding the blue tab. Be sure to return the blue tab to the home position (▲). (See Cleaning the corona wire on page 90.)	
abcdefghijk ABCD	■ The toner cartridge may be damaged. Put in a new toner cartridge. (See Replacing a toner cartridge on page 95.)	
abcde 01234	■ The drum unit may be damaged. Put in a new drum unit. (See Replacing the drum unit on page 98.)	
Black lines down the page	■ The fuser unit may be smudged. Call your Brother dealer for service.	
Printed pages have toner stains down the page		

Examples of poor print quality	Recommendation	
ABCDEFGH abcdefghijk ABCD abcde 01234 Poor fixing	■ Choose Improve Toner Fixing mode in the printer driver. (See Other Print Options (for Windows®) or Print Settings (for Macintosh®) in the Software User's Guide on the CD-ROM.)	
	If this selection does not provide enough improvement, choose Thicker Paper in Media Type settings.	

Error and maintenance messages

As with any sophisticated office product, errors may occur and consumable items may need to be replaced. If this happens, your machine identifies the error or required routine maintenance and shows the appropriate message. The most common error and maintenance messages are shown below.

You can clear most errors and perform routine maintenance messages by yourself. If you need more help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips.

Visit us at http://solutions.brother.com/.

Error Message	Cause	Action
Access Error	The device is removed from the USB direct interface while the data is processing.	Press Stop/Exit . Reinsert the device and try to print with Direct Print.
Cartridge Error	The toner cartridge is not installed correctly.	Pull out the drum unit, take out the toner cartridge that is indicated on the LCD, and put it back into the drum unit again.
Cooling Down Wait for a while	The temperature of the drum unit or toner cartridge is too hot. The machine will pause its current	Make sure that you can hear the fan in the machine spinning and that the exhaust outlet is not blocked by something.
	mode. During the cooling down mode, you will hear the cooling	If the fan is spinning, remove any obstacles that surround the exhaust outlet, and then leave the machine turned on but do not use it for several minutes.
	Wait for a while.	If the fan is not spinning, disconnect the machine from the power for several minutes, then reconnect it.
Cover is Open	The front cover is not closed completely.	Close the front cover of the machine.
Cover is Open	The fuser cover is not closed completely or paper was jammed in the back of the machine when you turned on the power.	 Close the fuser cover of the machine. Make sure paper is not jammed inside the back of the machine, and then close the fuser cover and press Start.
Document Jam	The document was not inserted or fed correctly, or the document scanned from the ADF was too long.	See Document jams on page 79 or Using the automatic document feeder (ADF) on page 20.
Drum Error	The corona wire on the drum unit needs to be cleaned.	Clean the corona wire on the drum unit. (See Cleaning the corona wire on page 90.)
	The drum unit has reached the end of its life.	Replace the drum unit. (See Replacing the drum unit on page 98.)
Duplex Disabled	The duplex tray is not installed properly.	Remove the duplex tray and install it again.

Error Message	Cause	Action
Fuser Error	The temperature of fuser unit does not rise at a specified temperature within specified time.	Turn the power switch off, wait a few seconds, and then turn it on again. Leave the machine for 15 minutes with the power on.
	The fuser unit is too hot.	
Jam Duplex	The paper is jammed in the duplex tray.	(See <i>Paper jams</i> on page 80.)
Jam Rear	The paper is jammed in the back of the machine.	(See <i>Paper jams</i> on page 80.)
Jam Inside	The paper is jammed inside the machine.	(See <i>Paper jams</i> on page 80.)
Jam MP Tray	The paper is jammed in the MP tray of the machine.	(See <i>Paper jams</i> on page 80.)
Jam Tray 1	The paper is jammed in the paper	(See <i>Paper jams</i> on page 80.)
Jam Tray 2	tray of the machine.	
No Paper	The machine is out of paper or	Do one of the following:
	paper is not correctly loaded in the paper tray.	Refill the paper in the paper tray or MP tray.
		■ Remove the paper and load it again.
No Toner	The toner cartridge or the drum unit and toner cartridge assembly is not installed correctly.	Re-install the toner cartridge or the drum unit and toner cartridge assembly.
No Tray	The paper tray is not completely closed.	Close the paper tray properly.
Out of Memory	The machine's memory is full.	Copy operation in progress
		Do one of the following:
		■ Press Start to copy the scanned pages.
		Press Stop/Exit and wait until the other operations in progress finish, and then try again.
		■ Clear the data from the memory. (See Out of memory message on page 39.)
		Print operation in process
		Reduce print resolution. (See Advanced tab in the Software User's Guide on the CD-ROM.)
Print Unable XX	The machine has a mechanical problem.	Disconnect the machine from the power for several minutes, then reconnect it.
Protected Device	The protect switch of the USB Flash memory drive is on.	Turn off the protect switch of the USB Flash memory drive.

Error Message	Cause	Action
Replace Parts	The drum unit is the end of its life.	Replace the drum unit.
Drum		(See Replacing the drum unit on page 98.)
	The drum unit counter was not reset when a new drum was installed.	 Open the front cover, and then press Clear/Back. Press 1 to reset.
Replace Parts	It is time to replace the fuser unit.	Call your Brother dealer to replace the fuser
Fuser Unit		unit.
Replace Parts Laser Unit	It is time to replace the laser unit.	Call your Brother dealer to replace the laser unit.
Replace Parts PF kit MP	It is time to replace the paper feeding kit for the MP tray.	Call your Brother dealer to replace the PF Kit MP.
Replace Parts PF kit 1	It is time to replace the paper feeding kit for Tray 1.	Call your Brother dealer to replace the PF Kit 1.
Replace Parts PF kit 2	It is time to replace the paper feeding kit for Tray 2.	Call your Brother dealer to replace the PF Kit 2.
Rename the File	There is already a file on the USB Flash memory drive with the same name as the file you are trying to save.	Change the file name of the file on the USB Flash memory drive or the file you are trying to save.
Replace Toner	The toner cartridge is at the end of its life and printing is not possible.	Replace the toner cartridge with a new one. (See <i>Replacing a toner cartridge</i> on page 95.)
Scanner Locked	The scanner lock is locked.	Open the document cover, and then release the scanner lock lever. Press Stop/Exit.
Scan Unable XX	The machine has a mechanical	Disconnect the machine from the power for
	problem.	several minutes, then reconnect it.
	Document is too long for duplex scanning.	Press Stop/Exit . Use the appropriate size of paper for duplex scanning. (See <i>Scan</i> on page 123.)

Error Message	Cause	Action
Toner Low	If the LCD shows Toner Low, you can still print; however, the machine is telling you that the toner cartridge is near the end of its life and the toner will soon need replacing.	Order a new toner cartridge now.
Too Many Files	There are too many files stored on the USB Flash memory drive.	Reduce the number of files stored on the USB Flash memory drive.
Too Many Trays	More than one optional tray is installed.	The maximum number of optional trays is one. Remove any additional trays.
Unusable Device	An incompatible or broken device has been connected to the USB direct interface.	Remove the USB Flash memory drive from the USB direct interface.

Document jams

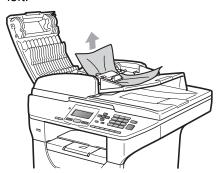

If the document is jammed, follow the steps below.

IMPORTANT

After removing a jammed document, check that no paper scraps are left in the machine that could cause another jam.

Document is jammed in the top of the ADF unit

- 1 Take out any paper from the ADF that is not jammed.
- 2 Open the ADF cover.
- Pull the jammed document out to the left.

- 4 Close the ADF cover.
- 5 Press Stop/Exit.

Document is jammed under the document cover

- 1 Take out any paper from the ADF that is not jammed.
- 2 Lift the document cover.
- 3 Pull the jammed document out to the right.

- 4 Close the document cover.
- 5 Press Stop/Exit.

Document is jammed at the output tray

- 1 Take out any paper from the ADF that is not jammed.
- 2 Pull the jammed document out to the right.

3 Press Stop/Exit.

Document is jammed in the duplex slot

- Take out any paper from the ADF that is not jammed.
- Pull the jammed document out to the right.

Press Stop/Exit.

Paper jams

To clear paper jams, please follow the steps in this section.

! IMPORTANT

Please confirm that you have installed both a toner cartridge and a drum unit in the machine. If you have not installed a drum unit or have installed the drum unit incorrectly, then this may cause a paper jam in your Brother machine.

If the error message remains, open and close the front cover and fuser cover firmly to reset the machine.

A CAUTION

/ HOT SURFACE

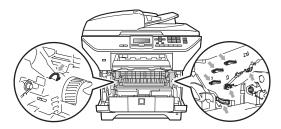

After you have just used the machine, some internal parts of the machine will be extremely hot. To prevent injury, when you open the front or back cover (back output tray) of the machine DO NOT touch the shaded parts shown in the illustration.

! IMPORTANT

To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

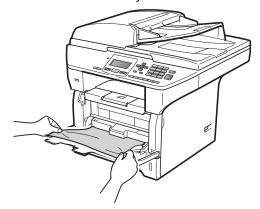

The LCD names for the paper trays are as follows:

- Standard paper tray: Tray 1
- Optional lower tray: Tray 2
- Multi-purpose tray: MP Tray

Paper is jammed in the MP tray

If the LCD shows Jam MP Tray, follow these steps:

- 1 Remove the paper from the MP tray.
- 2 Remove any jammed paper from in and around the MP tray.

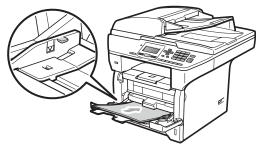

3 Close the MP tray. Then open the front cover and close it to reset the machine. Open the MP tray again.

Fan the paper stack, and then put it back in the MP tray.

When loading paper in the MP tray, make sure that the paper stays under the maximum paper height guides on both sides of the tray.

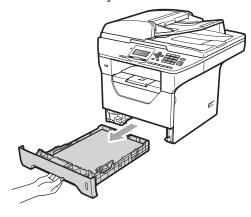

Paper is jammed in Paper Tray 1 or Tray 2

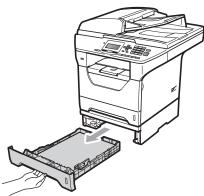

If the LCD shows Jam Tray 1 or Jam Tray 2, follow these steps:

1 Pull the paper tray completely out of the machine.

For Jam Tray 1:

For Jam Tray 2:

Use both hands to slowly pull out the jammed paper.

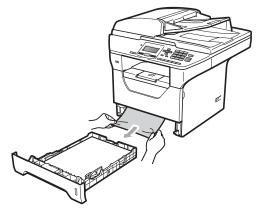

- Make sure the paper is below the maximum paper mark (▼) of the paper tray. While pressing the blue paperguide release lever, slide the paper guides to fit the paper size. Make sure that the guides are firmly in the slots.
- 4 Put the paper tray firmly back in the machine.

! IMPORTANT

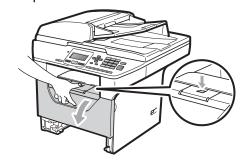

DO NOT take out the standard paper tray while paper is feeding from a lower paper tray as this will cause a paper jam.

Paper is jammed inside the machine

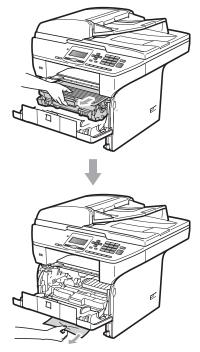

- 1 Pull the paper tray completely out of the machine.
- 2 Use both hands to slowly pull out the jammed paper.

3 Press the front cover release button and open the front cover.

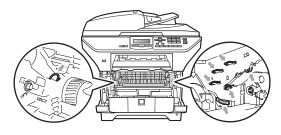

4 Slowly take out the drum unit and toner cartridge assembly. The jammed paper may be pulled out with the toner cartridge and drum unit assembly, or this may release the paper so you can pull it out of the paper tray opening.

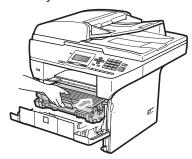

1 IMPORTANT

We recommend that you place the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.

To prevent damage to the machine from static electricity, DO NOT touch the electrodes shown in the illustration.

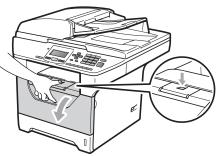

5 Put the drum unit and toner cartridge assembly back in the machine.

- 6 Close the front cover.
- 7 Put the paper tray firmly back in the machine.

Paper is jammed inside the drum unit and toner cartridge assembly

1 Press the front cover release button and open the front cover.

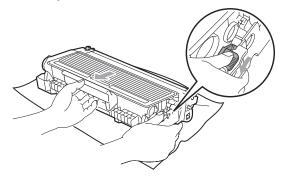

Slowly take out the drum unit and toner cartridge assembly.

! IMPORTANT

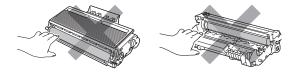

We recommend that you place the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.

Push down the blue lock lever and take the toner cartridge out of the drum unit. Take out the jammed paper if there is any inside the drum unit.

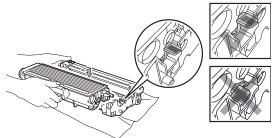

IMPORTANT

- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.
- To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations below.

4 Clear the jammed paper if there is any inside the drum unit.

Dut the toner cartridge back into the drum unit until you hear it lock into place. If you put it in correctly, the blue lock lever will lift automatically.

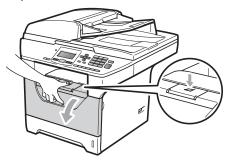

6 Put the drum unit and toner cartridge assembly back in the machine.

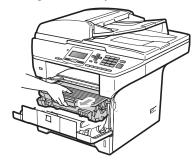

Close the front cover.

Paper is jammed at the back of the machine

1 Press the front cover release button and open the front cover.

Slowly take out the drum unit and toner cartridge assembly.

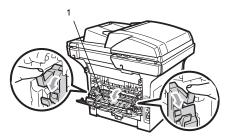

IMPORTANT

We recommend that you place the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.

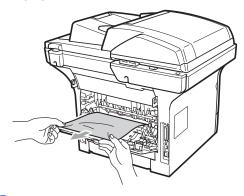

3 Open the back cover (back output tray).

4 Pull the tabs at the left and right hand sides toward you to open the fuser cover (1).

5 Pull the jammed paper out of the fuser unit.

- 6 Close the fuser cover and back cover (back output tray).
- 7 Put the drum unit and toner cartridge assembly back in the machine.

8 Close the front cover.

Paper is jammed in the duplex tray

1 Pull the duplex tray completely out of the machine.

Pull the jammed paper out of the machine or the duplex tray.

3 Put the duplex tray back in the machine.

Routine maintenance

▲ WARNING

Use neutral detergents.

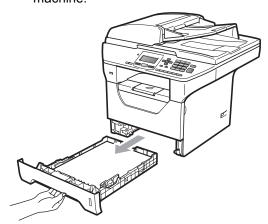

DO NOT use any flammable substances, spray or organic solvent/liquids containing alcohol/ammonia to clean the inside or outside of the machine. Doing this may cause a fire or electrical shock. (For more information, see *Important safety instructions* on page 57.)

IMPORTANT

The drum unit contains toner, so handle it carefully. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.

Cleaning the outside of the machine

- 1 Turn off the machine. Disconnect all cables, and then unplug the power cord from the electrical socket.
- Pull the paper tray completely out of the machine.

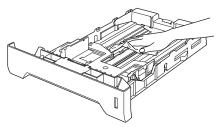

Wipe the outside of the machine with a dry, lint-free soft cloth to remove dust.

4 Remove any paper that is in the paper tray.

5 Wipe the inside and the outside of the paper tray with a dry, lint-free soft cloth to remove dust.

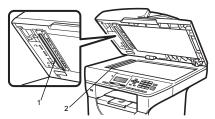

- 6 Re-load the paper and put the paper tray firmly back in the machine.
- 7 Plug the machine's power cord back into the electrical socket first, and reconnect all cables. Turn on the machine.

Cleaning the scanner

- 1 Turn off the machine. Disconnect all cables and then unplug the power cord from the electrical socket.
- 2 Lift the document cover (1).
 Clean the white plastic surface (2) and scanner glass (3) underneath it with a soft lint-free cloth moistened with water.

In the ADF unit, clean the white bar (1) and the scanner glass strip (2) underneath it with a soft lint-free cloth moistened with water.

4 Plug the machine's power cord back into the electrical socket first, and reconnect all cables. Turn on the machine.

In addition to cleaning the scanner glass and glass strip with a soft lint-free cloth moistened with water, run your finger tip over the glass to see if you can feel anything on it. If you feel dirt or debris, clean the glass again concentrating on that area. You may need to repeat the cleaning process three or four times. To test, make a copy after each cleaning.

Cleaning the laser scanner window

▲ WARNING

Use neutral detergents.

DO NOT use any flammable substances, spray or organic solvent/liquids containing alcohol/ammonia to clean the inside or outside of the machine. Doing this may cause a fire or electrical shock. For more information see *Important safety instructions* on page 57.

IMPORTANT

DO NOT touch the laser scanner window with your fingers.

- Before you clean the inside of the machine, turn off the machine. Unplug the power cord from the electrical socket.
- Open the front cover and slowly take out the drum unit and toner cartridge assembly.

A CAUTION

HOT SURFACE

After you have just used the machine, some internal parts of the machine will be extremely hot. To prevent injury, when you open the front or back cover (back output tray) of the machine DO NOT touch the shaded parts shown in the illustration.

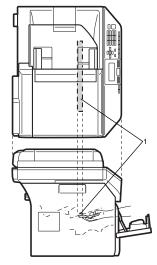

! IMPORTANT

 To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

 We recommend that you place the drum unit on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner. Wipe the laser scanner window (1) by wiping it with a dry, lint-free soft cloth.

4 Put the drum unit and toner cartridge assembly back in the machine.

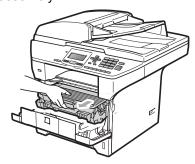

- Close the front cover.
- 6 Plug the machine's power cord back into the electrical socket first. Turn on the machine.

Cleaning the corona wire

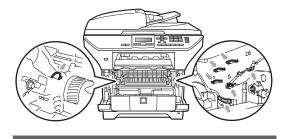

If you have print quality problems, clean the corona wire as follows:

- 1 Turn off the machine. Disconnect all cables, and then unplug the power cord from the electrical socket.
- Open the front cover and slowly take out the drum unit and toner cartridge assembly.

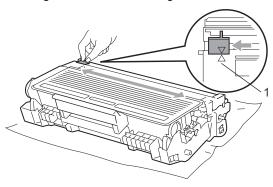

IMPORTANT

- We recommend that you place the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.
- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.
- To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

Clean the corona wire inside the drum unit by gently sliding the blue tab from right to left and left to right several times.

Be sure to return the blue tab to the home position (**A**) (1). If you do not, printed pages may have a vertical stripe.

4 Put the drum unit and toner cartridge assembly back in the machine.

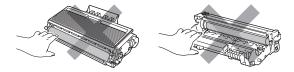

6 Close the front cover.

6 Plug the machine's power cord back into the electrical socket first, and then reconnect all cables. Turn on the machine.

IMPORTANT

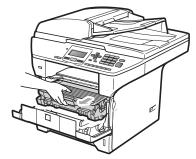

To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations below.

Cleaning the drum unit

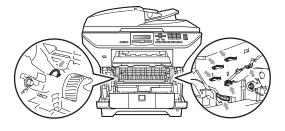

If you have print quality problems, clean the drum unit as follows.

- 1 Turn off the machine. Unplug the power cord from the electrical socket.
- Open the front cover and slowly take out the drum unit and toner cartridge assembly.

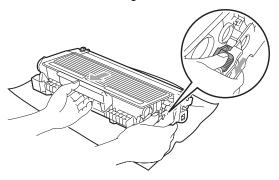

! IMPORTANT

- We recommend that you put the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.
- To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

3 Push down the blue lock lever and take the toner cartridge out of the drum unit.

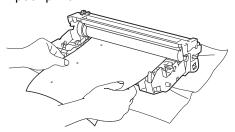

IMPORTANT

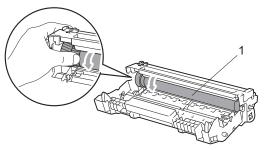

- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.
- To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations below.

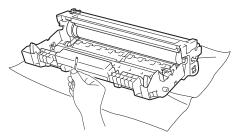

4 Put the print sample in front of the drum unit, and find the exact position of the poor print.

Turn the drum unit gear by hand while looking at the surface of the OPC drum (1).

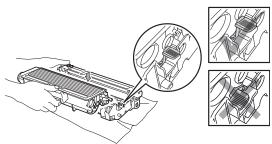

6 When you have found the mark on the drum that matches the print sample, wipe the surface of the OPC drum with a dry cotton swab until the dust or glue on the surface comes off.

! IMPORTANT

- The drum is photosensitive so DO NOT touch it with your fingers.
- DO NOT clean the surface of the photosensitive drum with a sharp object.
- DO NOT use excessive force when cleaning the drum unit.

7 Put the toner cartridge back into the drum unit until you hear it lock into place. If you put the cartridge in correctly, the blue lock lever will lift automatically.

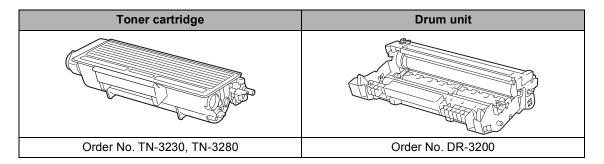

8 Put the drum unit and toner cartridge assembly back in the machine.

- 9 Close the front cover.
- 10 Plug the machine's power cord back into the electrical socket first, and then reconnect all cables. Turn on the machine.

Replacing the consumable items

You will need to replace the consumable items when the machine indicates that the life of the consumable is over.

IMPORTANT

- We recommend placing used consumable items on a sheet of paper to prevent accidentally spilling or scattering the material inside.
- Be sure to reseal the consumable items tightly so that the material inside does not spill.

Note

- Discard used consumable items according to local regulations. (See *Quick Setup Guide*.) If you choose not to return your used consumable, please discard the used consumable according to local regulations, keeping it separate from domestic waste. If you have questions, call your local waste disposal office.
- If you use paper that is not a direct equivalent for the recommended paper, the life of consumable items and machine parts may be reduced.

Replacing a toner cartridge

The High Yield toner cartridges can print approximately 8,000 pages ¹ and the Standard toner cartridges can print approximately 3,000 pages ¹. Actual page count will vary depending on your average type of document (i.e., standard letter, detailed graphics). When a toner cartridge is running low, the LCD shows Toner Low.

Approx. cartridge yield is declared in accordance with ISO/IEC 19752.

It is a good idea to keep a new toner cartridge ready for use when you see the Toner Low warning.

A CAUTION

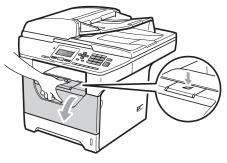

HOT SURFACE

After you have just used the machine, some internal parts of the machine will be extremely hot. To prevent injury, when you open the front or back cover (back output tray) of the machine DO NOT touch the shaded parts shown in the illustration.

1 Press the front cover release button and open the front cover.

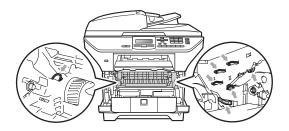

Slowly take out the drum unit and toner cartridge assembly.

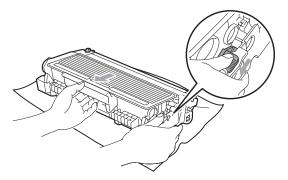

IMPORTANT

- We recommend that you put the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.
- To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

3 Push down the blue lock lever and take the used toner cartridge out of the drum unit.

▲ WARNING

DO NOT put a toner cartridge into a fire. It could explode, resulting in injuries.

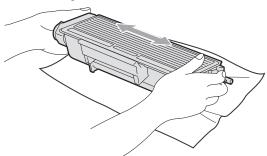

! IMPORTANT

- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.
- To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

 Brother machines are designed to work with toner of a particular specification and will work to a level of optimum performance when used with genuine Brother toner cartridges (TN-3230/TN-3280). Brother cannot guarantee this optimum performance if toner or toner cartridges of other specifications are used. Brother does not therefore recommend the use of cartridges other than genuine Brother cartridges with this machine, or the refilling of used cartridges with toner from other sources. If damage is caused to the drum unit or other part of this machine as a result of the use of toner or toner cartridges other than genuine Brother products due to the incompatibility or lack of suitability of those products with this machine, any repairs required as a result may not be covered by the warranty.

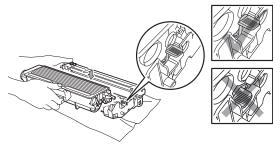

- Unpack the toner cartridges just before you put it in the machine. If a toner cartridge is left unpacked for a long time, the toner life will be shortened.
- Be sure to seal up the used toner cartridge tightly in a suitable bag so that toner powder does not spill out of the cartridge.
- 4 Unpack the new toner cartridge. Gently shake it from side to side several times to distribute the toner evenly inside the cartridge.

Pull off the protective cover.

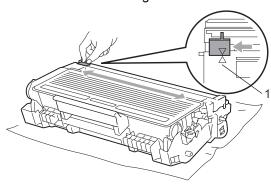

6 Put the new toner cartridge firmly into the drum unit until you hear it lock into place. If you put it in correctly, the lock lever will lift automatically.

Make sure that you put in the toner cartridge correctly or it may separate from the drum unit.

7 Clean the corona wire of the drum unit by gently sliding the blue tab from right to left and left to right several times.

Be sure to return the blue tab to the home position (**A**) (1). If you do not, printed pages may have a vertical stripe.

8 Put the drum unit and toner cartridge assembly back in the machine.

9 Close the front cover.

DO NOT turn off the machine or open the front cover until the LCD returns to the standby state.

Replacing the drum unit

The machine uses a drum unit to create print images on paper. If the LCD shows Replace Parts Drum, the drum unit is near the end of its life and it is time to buy a new one. Even if the LCD shows Replace Parts Drum, you may be able to continue printing without having to replace the drum unit for a while. However, if there is a noticeable deterioration in the output print quality (even before Replace Parts Drum appears), then the drum unit should be replaced. You should clean the machine when you replace the drum unit. (See Cleaning the laser scanner window on page 88.)

! IMPORTANT

While removing the drum unit, handle it carefully because it may contain toner. If toner scatters on your hands or clothes, wipe or wash it off with cold water at once.

The drum unit is a consumable item, and it is necessary to replace it periodically. There are many factors that determine the actual drum life, such as temperature, humidity, type of paper and how much toner you use for the number of pages per print job. The estimated drum life is approximately 25,000 pages ¹. The actual number of pages your drum will print may be significantly less than this estimate. Because we have no control over the many factors that determine the actual drum life, we cannot guarantee a minimum number of pages that will be printed by your drum.

Drum yield is approximate, and may vary by type of use.

A CAUTION

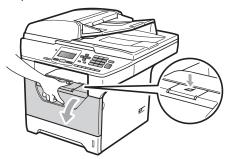

HOT SURFACE

After you have just used the machine, some internal parts of the machine will be extremely hot. To prevent injury, when you open the front or back cover (back output tray) of the machine DO NOT touch the shaded parts shown in the illustration.

Press the front cover release button and open the front cover.

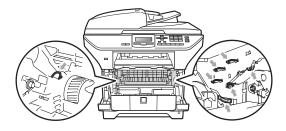

Slowly take out the drum unit and toner cartridge assembly.

IMPORTANT

- We recommend that you put the drum unit and toner cartridge assembly on a clean, flat surface with a sheet of disposable paper or cloth underneath it in case you accidentally spill or scatter toner.
- To prevent damage to the machine caused by static electricity, DO NOT touch the electrodes shown in the illustration.

3 Push down the blue lock lever and take the toner cartridge out of the drum unit.

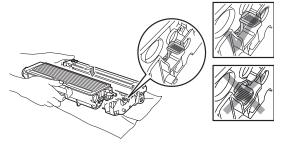

IMPORTANT

 To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

- Wait to unpack a new drum unit until immediately before you put it in the machine. Exposure to direct sunlight or room light may damage the drum unit.
- Be sure to seal up the used drum unit tightly in a bag so that toner powder does not spill out of the unit.
- 4 Unpack the new drum unit.

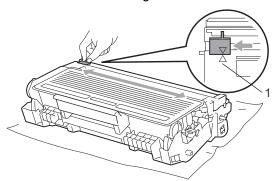

Put the toner cartridge firmly into the new drum unit until you hear it lock into place. If you put the cartridge in correctly, the blue lock lever will lift automatically.

Make sure that you put in the toner cartridge correctly or it may separate from the drum unit.

6 Clean the corona wire of the drum unit by gently sliding the blue tab from right to left and left to right several times.

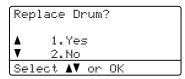

Be sure to return the blue tab to the home position (**A**) (1). If you do not, printed pages may have a vertical stripe.

7 Put the new drum unit and toner cartridge assembly in the machine.

Do not close the front cover.

8 Press Clear/Back.

To confirm you are installing a new drum, press 1.

When the LCD shows Accepted, close the front cover.

Replacing periodic maintenance parts

The periodic maintenance parts will need to be replaced regularly to maintain the print quality. The parts listed below will have to be replaced after printing approximately 50,000 pages for PF Kit MP and 100,000 pages for PF Kit1, PF Kit2, Fuser and Laser. Please call your Brother dealer when the following messages appear on the LCD.

LCD message	Description
Replace Parts PF kit MP	Replace paper feeding kit for MP tray.
Replace Parts PF kit 1	Replace paper feeding kit for Tray 1.
Replace Parts PF kit 2	Replace paper feeding kit for Tray 2.
Replace Parts Fuser Unit	Replace fuser unit.
Replace Parts Laser Unit	Replace laser unit.

C

Machine Information

Checking the Serial Number

You can see the machine's Serial Number on the LCD.

- 1 Press Menu, 6, 3.
- 2 Press Stop/Exit.

Checking the Page Counters

You can see the machine's Page Counters for copies, printed pages, reports and lists or a summary total.

- 1 Press Menu, 6, 4.
- Press ▲ or ▼ to see Total, List, Copy or Print.
- 3 Press Stop/Exit.

Checking the remaining life of parts

You can see the remaining life of the machine's drum unit and periodic maintenance parts on the LCD.

- 1 Press Menu, 6, 7.
- Press ▲ or ▼ to choose 1.Drum, 2.Fuser, 3.Laser, 4.PF kit MP, 5.PF kit 1 or 6.PF Kit 2 ¹. Press OK.
 - PF Kit 2 appears only when the optional LT-5300 tray is installed.
- 3 Press Stop/Exit.

Reset

The following reset functions are available:

1 Network

You can reset the print server back to its default factory settings such as the password and IP address information.

2 All Settings

You can reset all the machine settings back to the settings that were set at the factory.

Brother strongly recommends you use this operation when you dispose of the machine.

Unplug the interface cable when you reset All Settings.

How to reset

- 1 Press Menu, 1, 8.
- Press ▲ or ▼ to choose 1.Network or 2.All Settings. Press OK.
- 3 Press A or ▼ to choose 1.Reset or 2.Exit. Press OK.
- 4 If you chose 1.Reset in step ③, you will be asked to reboot the machine.

 Press ▲ or ▼ to choose 1.Yes or 2.No.

 Press OK.

If you choose 1. Yes, the machine will begin the Restart.

You can also reset the Network settings by pressing **Menu**, **5**, **0**.

Packing and shipping the machine

A CAUTION

Make sure that the machine has fully cooled down by leaving it disconnected from the power for at least 30 minutes before packing.

When you transport the machine, use the packing materials that came with your machine. If you do not pack the machine correctly, you could void your warranty.

- Turn off the machine.
- 2 Unplug all the cables and AC power cord from the machine.
- 3 Push the Scanner Lock Lever down to lock the scanner. This lever is located on the left of the scanner glass.

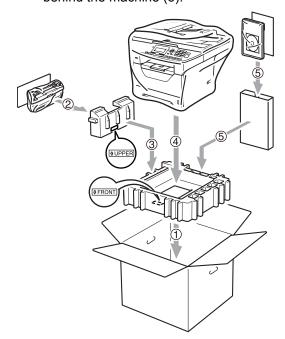

IMPORTANT

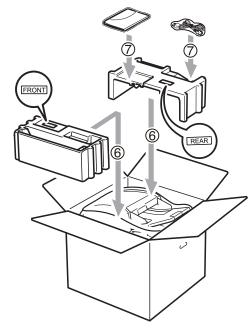

Damage caused to your machine by failure to lock the scanner before packing and shipping may void your warranty.

- Press the front cover release button and open the front cover.
- 5 Take out the drum unit and toner cartridge assembly. Leave the toner cartridge installed in the drum unit.

- 6 Put the drum unit and toner cartridge assembly into a plastic bag and seal the bag.
- Close the front cover.
- 8 Put the styrofoam piece marked "FRONT" into the original carton (1). Pack the drum unit and toner cartridge assembly (2) and put it in as shown below (3). Wrap the machine in the plastic bag and put it in the original carton (4). Put the printed material behind the machine (5).

9 Take the two styrofoam pieces and match the front of the machine to the "FRONT" mark on the one of the styrofoam pieces, and the back of the machine to the "REAR" mark on the other styrofoam piece (6). Put the AC power cord and printed materials in the original carton as shown below (7).

10 Close the carton and tape it shut.

D

Menu and features

On-screen programming

Your machine has been designed to be easy to use. The LCD provides on-screen programming using the menu keys.

We have created step by step on-screen instructions to help you program your machine. Simply follow the steps as they guide you through the menu selections and programming options.

Menu table

You can program your machine by using the *Menu table* on page 106. These pages list the menu selections and options.

Press **Menu** followed by the menu numbers to program your machine.

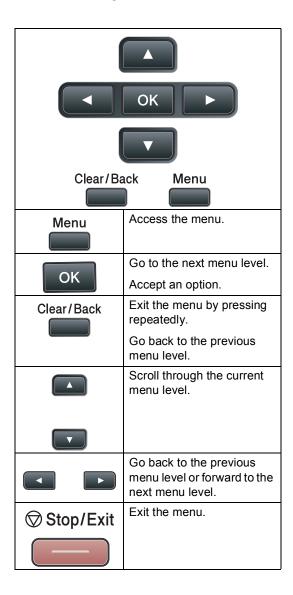

For example, to set Beeper volume to Low:

- 1 Press Menu, 1, 2.
- Press ▲ or ▼ to choose Low.
- 3 Press OK.

Memory storage

Your menu settings are stored permanently, and in the event of a power failure will *not* be lost. Temporary settings (for example, Contrast) *will* be lost.

Menu keys

How to access the menu mode

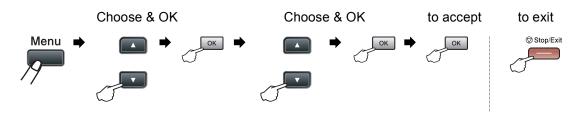

- 1 Press Menu.
- Choose an option.
 - Press 1 for General Setup menu.
 - Press **2** for Copy menu.
 - Press **3** for Printer menu.
 - Press 4 for USB Direct I/F menu.
 - Press **5** for Network menu.
 - Press 6 for Machine Info. menu.

You can also scroll through each menu level by pressing ▲ or ▼ for the direction you want.

- 3 Press **OK** when the option you want appears on the LCD.
 The LCD will then show the next menu level.
- Press ▲ or ▼ to scroll to your next menu selection.
- 5 Press **OK**. When you have finished setting an option, the LCD will show Accepted.
- 6 Press Stop/Exit to exit Menu mode.

Menu table

The factory settings are shown in Bold with an asterisk.

Interfaces

Parallel A bi-directional shielded parallel cable that is IEEE 1284 compliant and

no longer than 2 m. 1

USB Use a USB 2.0 interface cable (type A/B) that is no longer than 2 m. 2 3

LAN cable Use an Ethernet UTP cable category 5 or greater.

- Parallel cable is not supported for Window Vista[®], Windows Server[®] 2003, Windows Server[®] 2003 x64 Edition and Windows Server[®] 2008.
- Your machine has a Hi-Speed USB 2.0 interface. The machine can also be connected to a computer that has a USB 1.1 interface.
- ³ Third party USB ports are not supported for Macintosh[®].

Direct Print feature

Compatibility

PDF version 1.7 ¹, JPEG, Exif + JPEG, PRN (created by Brother printer driver), TIFF (scanned by all Brother MFC or DCP models), PostScript[®]3™ (created by Brother BR-Script 3 printer driver), XPS version 1.0.

¹ PDF data including a JBIG2 image file, a JPEG2000 image file or transparency files are not supported.

Glossary

This is a comprehensive list of features and terms that appear in Brother manuals. Availability of these features depends on the model you purchased.

ADF (automatic document feeder)

The document can be placed in the ADF and scanned one page at a time automatically.

Beeper Volume

Volume setting for the beep when you press a key or make an error.

Cancel Job

Cancels a programmed print job and clears the machine's memory.

Contrast

Setting to compensate for dark or light documents, by making copies of dark documents lighter and light documents darker.

Fine resolution

Resolution is 203×196 dpi. It is used for small print and graphs.

Greyscale

The shades of grey available for copying photographs.

LCD (liquid crystal display)

The display screen on the machine that shows interactive messages during On-Screen Programming and shows the date and time when the machine is idle.

Menu mode

Programming mode for changing your machine's settings.

OCR (optical character recognition)

The bundled ScanSoft™
PaperPort™ 11SE with OCR or Presto!
PageManager software application
converts an image of text to text you can
edit.

Resolution

The number of vertical and horizontal lines per inch.

Scanning

The process of sending an electronic image of a paper document into your computer.

User Settings List

A printed report that shows the current settings of the machine.
